## NEW SCHOOL TO COST \$100,000

Building Will Have Accommodation For About 280 Pupils—Provision Made For Future Enlargement—Science Room, Toilets, Gymnasium and Cloak Rooms—Assembly Hall With Stage Will Seat 600—Statement of Estimated Figures.

A special meeting of the town council was held on Friday night, March 13, for the purpose of hearing the board of education and for going over the plans of the proposed new high school.

There was a full attendance of the council, and nine members of the board of education were present as well as J. S. Jackson, principal of the high school and J. H. Forman, principal of the public school. Those of the board were F. S. Williams, chairman; Dr. D. Clark, J. A. Campbell, G. B. McConachie, Dr. J. F. McLay, A. E. Phipps, R. T. Theal, Vernon Tuck, J. H. Wells.

G. R. Gouinlock, of Burden & Gouinlock, architects of Toronto, was present to explain the plans and any questions that might arise.

The main question before the council was as to the advisability of proceeding at once with the school, or submitting the question to a vote of the people.

That there must be a new public school is beyond question; the inspector has so decreed and the board has no alternative. That a new high school is needed was also shown, so it has been decided to build a high school to suit the needs and turn the present high school into a public school. And this far the question was quite plain.

The education board asks for \$100,000 and several members of the council came to the meeting convinced that such a sum should not be given without first submitting the question to the ratepayers. But when it was explained that the time lost in advertising and holding the election would very materially effect the school, a change of front was shown. This was also due much to the figures given in a statement presented by the board, as follows:

Statement of Annual Cost of Present High School

Expenses: Debentures.....\$ 1,695.03 Maintenance.....13,171.82

Total.....\$ 14,867.87

Receipts: Department grant.....\$ 1,283.25 Lincoln County grant.....4,156.86 Wentworth Co. grant.....17,39.81

Total.....\$ 8,570.92

Cost of maintenance.....\$ 1,283.25 Another teacher.....1,192.00

Total cost of High School for year.....\$ 7,480.95

Annual Cost of New High School

Expenses: Debentures on \$100,000.....\$ 6,880.54

(Continued on page 3).

## RICH. SHANNON STRICKEN DOWN

Chief Engineer At Pumping Plant Discovered Unconscious While on Duty on Thursday—Suffered From Strokes

On Thursday afternoon March 12, Richard Shannon chief engineer of the Waterworks pumping plant, was struck by a stroke of paralysis. He was not yet recalled sufficiently to tell any of the details.

About 2:30 o'clock Webb Smith, who was at the lake with one of the Ferris' teams for a load of gravel, went into the pumping station to get a drink of water and discovered the unconscious engineer on the floor.

Not realizing that a telephone was so near at hand, he drove to the basket factory of Territt Bros., and informed them, they immediately informing Clerk Randall, who in turn called Dr. McElroy and started for the pump house.

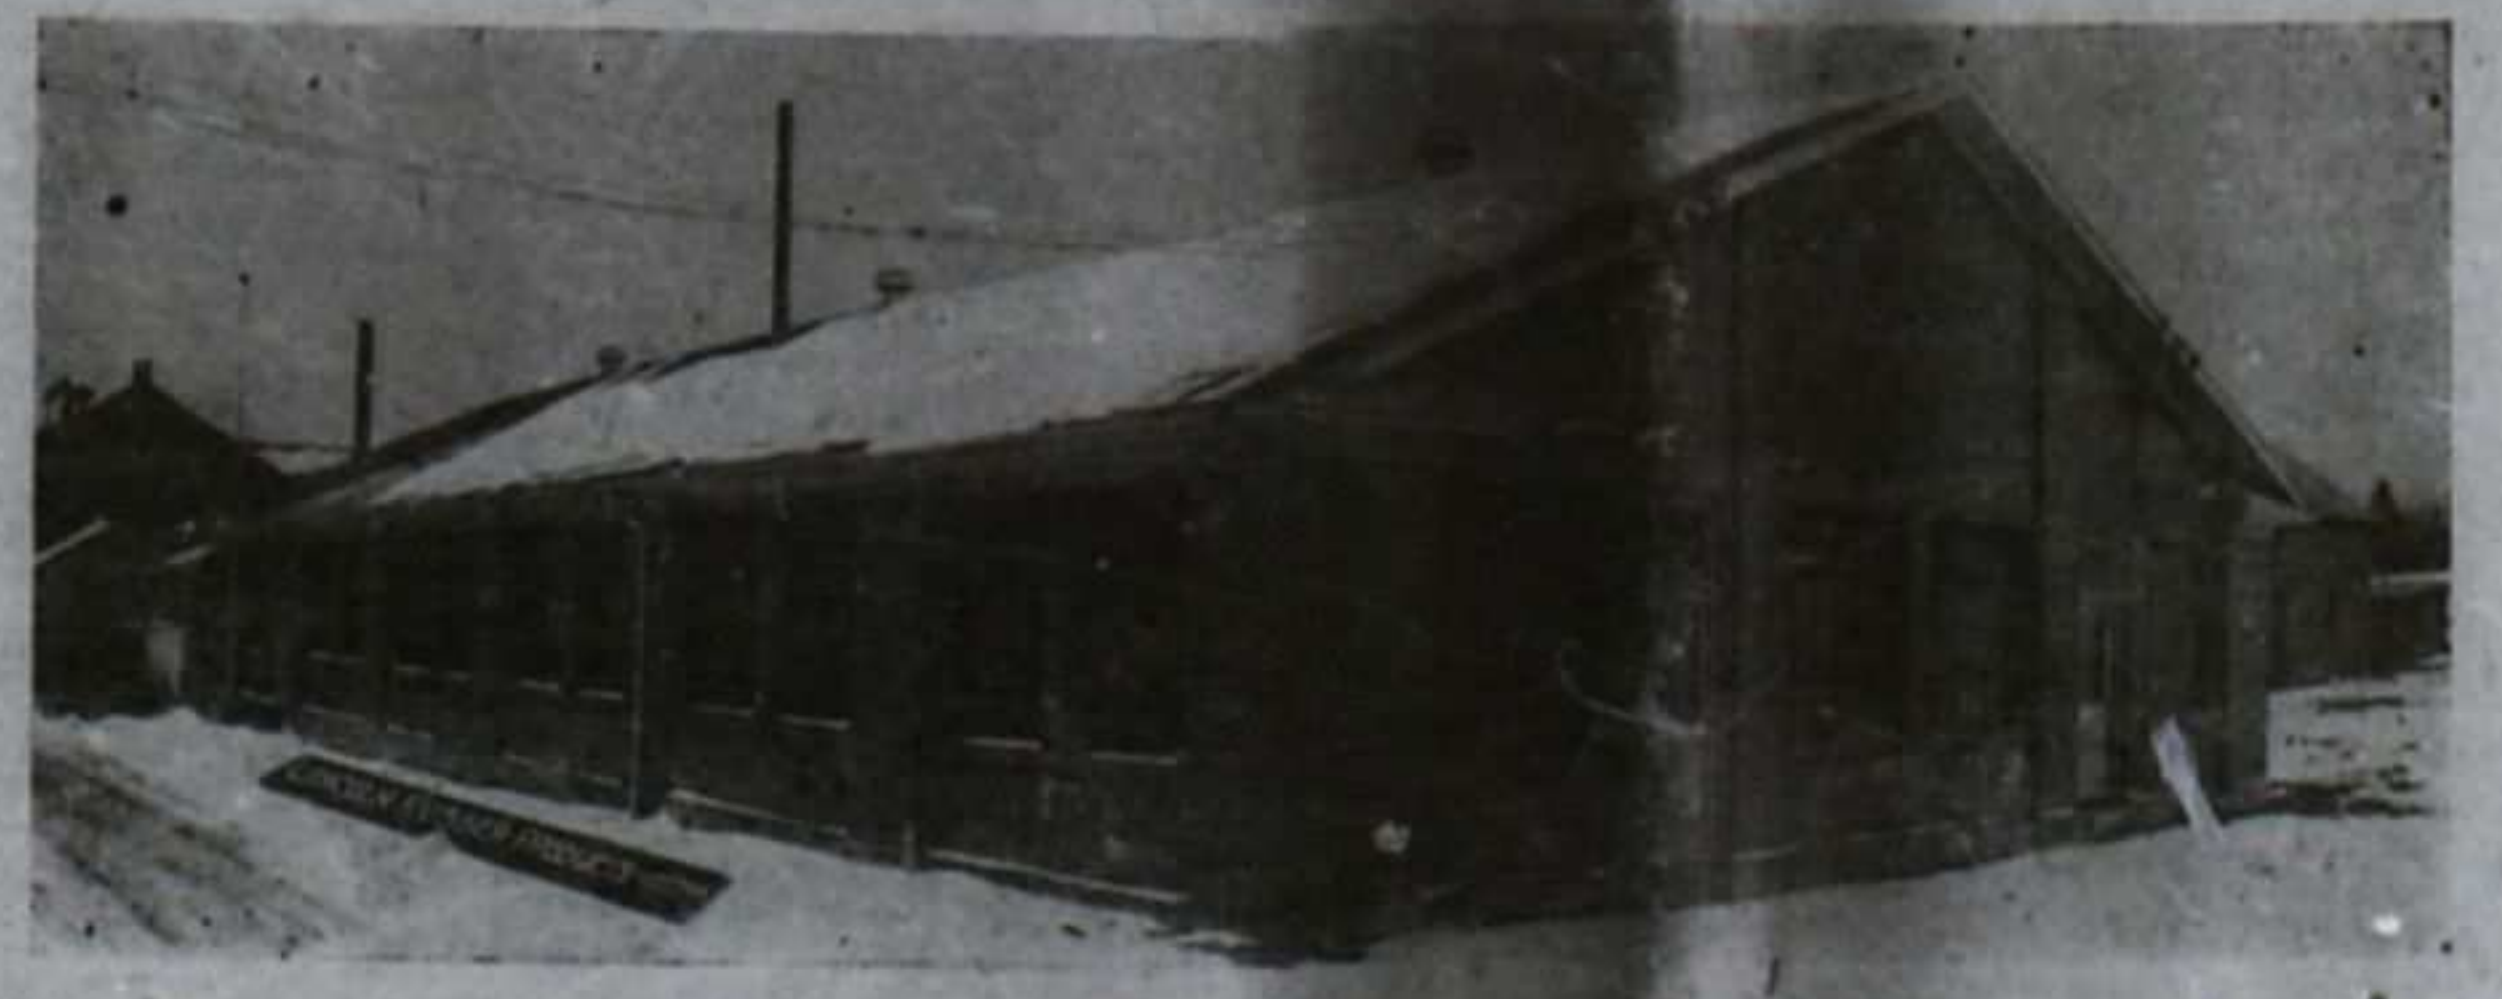

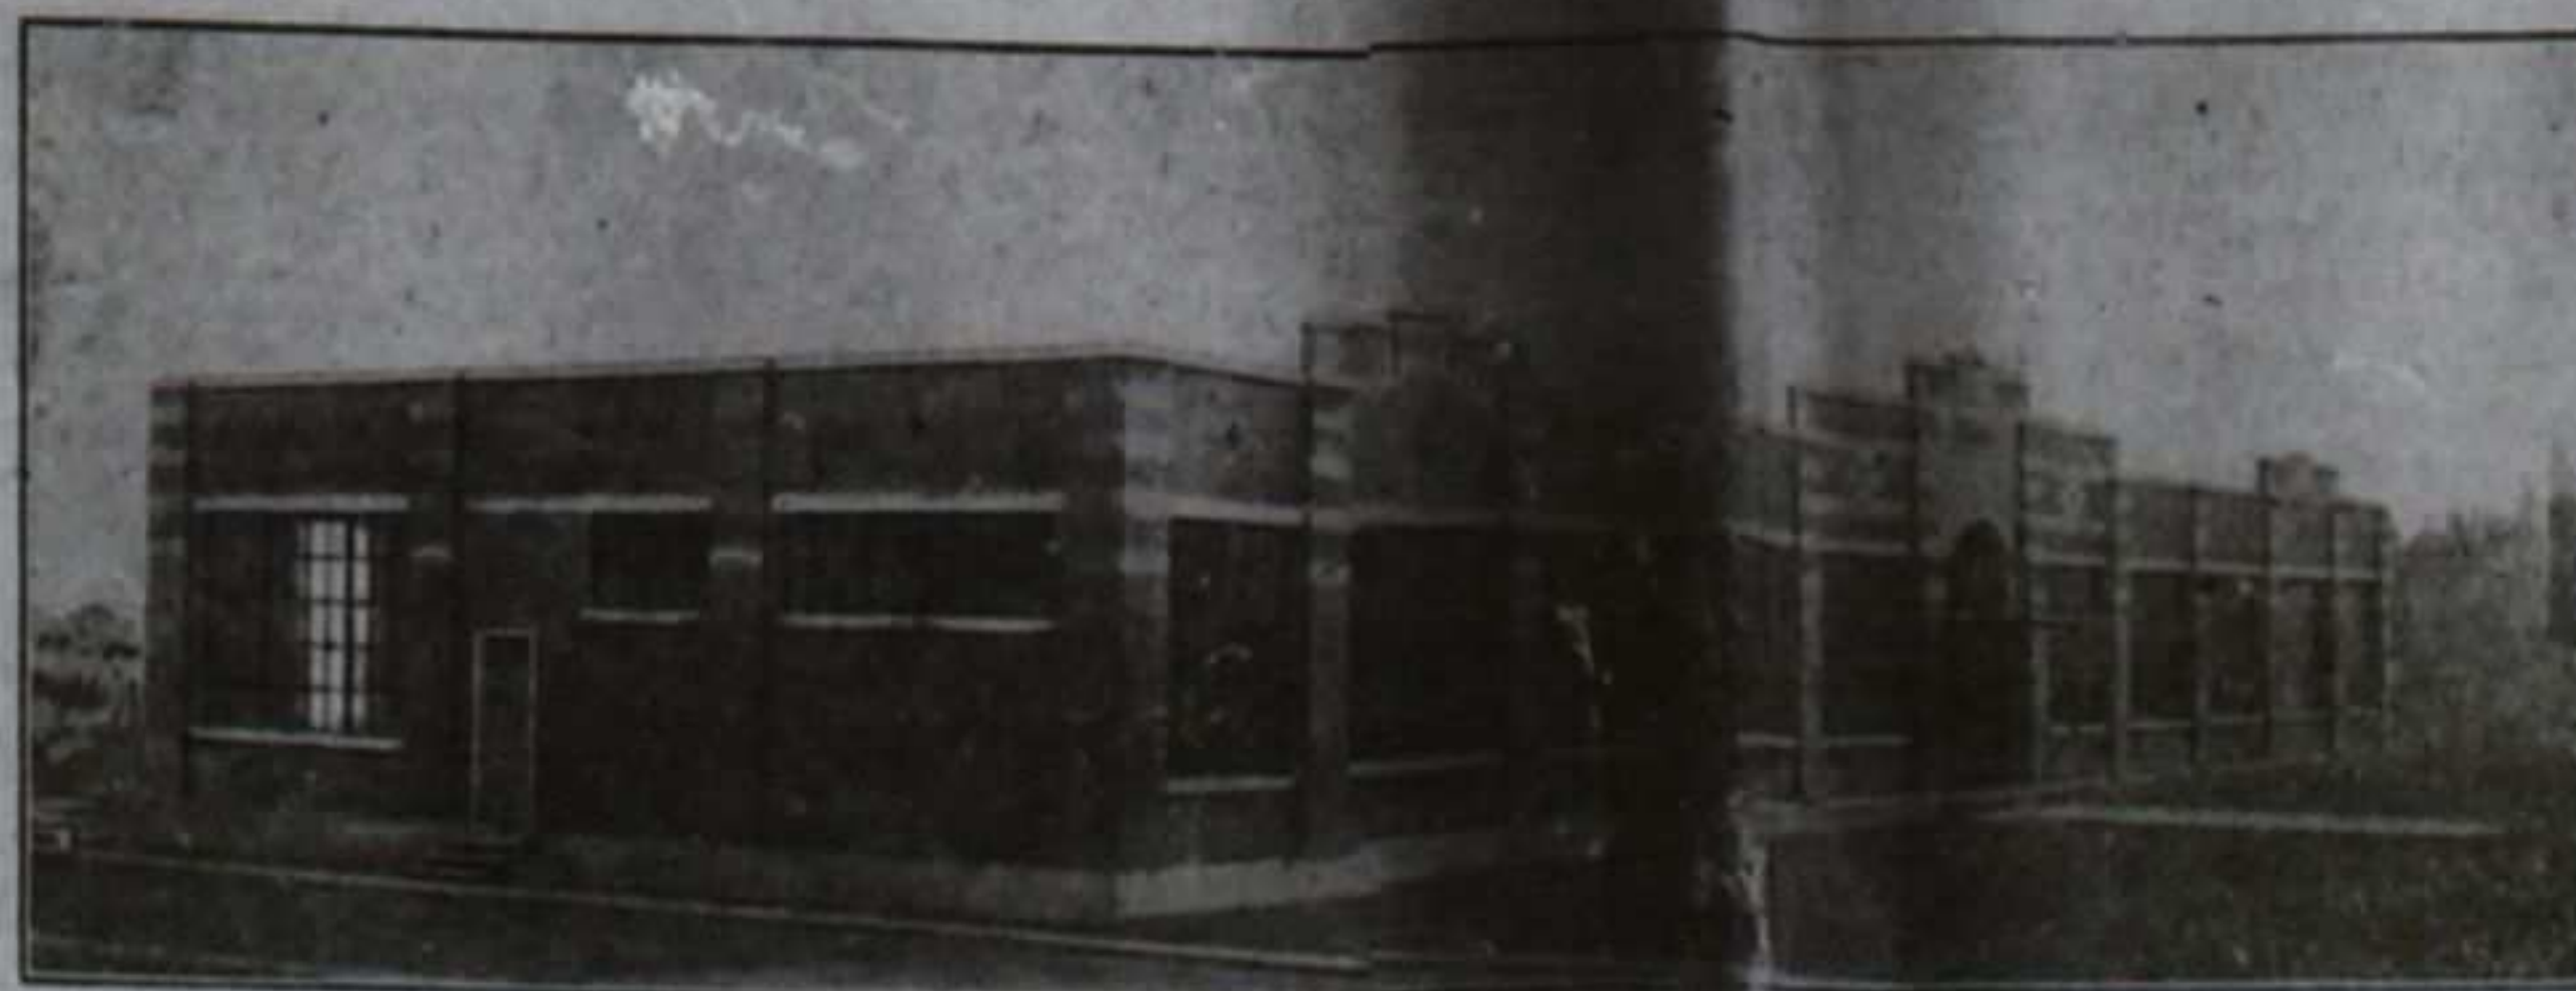

Prior to this, B. Smith, who was to relieve Shannon at 3 o'clock, had noticed that the reservoir was overflowing and called the pump house. Getting no response he concluded something was wrong and started for the lake.

He was well on the way when overtaken by Dr. McElroy and Clerk W. F. Randall, Randall getting out and returning for a larger car in which to bring Shannon to his home.

The engineer had gone on duty at 7 o'clock in the morning relieving Richard Dipper. His dinner pail was sitting on the table with the cover off, and he was found near the wash basin as if he had started there preparatory to eating his midday lunch.

Everything was O. K. except that the reservoir was overflowing, and on Smith's arrival the pumps were at once stopped. By the time the doctor had examined the prostrate engineer, Randall had arrived with an auto and Shannon was removed to his home.

Up to the present he has lain in a state of coma. His two brothers William of the Canadian National railway bridge and building department, Hamilton, and Charles, were here last week to see him.

The upper picture shows the exterior of the Premier Tire factory at Beamsville, recently acquired by the Lincoln Rubber Products, Limited, where automobile inner tubes will continue to be made. The lower picture is an exterior view of the Lincoln Rubber Products factory in Grimsby. New outer tires and rebuilt tires will be made in this plant.

## COUNCIL PASS BYLAW TO BUILD NEW SCHOOL

Fully Equipped and Ready to Occupy Before October—Town Will Save Money by Starting Operations At Once—Only Two Members of Council Adverse.

The adjourned meeting of the town council held on Monday night was productive of a new high school for Grimsby without the expense of a vote, and from the information handed out from authoritative quarters it also means saving of many hundreds of dollars on contract price and sale of debentures.

The by-law was introduced and read a first time on the motion of Moxley and Burgoyne, and the Mayor invited discussion.

That discussion was short. Mayor Livingston read and explained the statement—appearing in another column—to the large number of voters present.

The questions from the public were few, and a motion was introduced by St. John and Bird, that the by-law be read a second and third time and pass. Durham was emphatic in his stand against passing the by-law. He felt that the council was not competent to pass on the question, and that it should be subject to a vote. The mayor rather took Durham to task for the statement, saying that if the statement was correct—and it had been fairly well shown that it was—the council in passing the by-law was only involving a matter of \$1295 annually. Twelve competent men of the board of education had prepared and presented the statement; he could see no weak point in it, and these twelve men were the pick of the town; the eight men of the council had been chosen to do the work of the town; and he felt the judgement of these twenty men should prove good.

Reeve Munnell said he had gone into the question fully and was now convinced that a school was a necessity and in view of circumstances it was better to go ahead at once, than to be stuck for \$2,000 or more for a public school, when the town would have to build without outside aid.

Wadge thought that the way the town was fixed the people should be given a chance to defeat the by-law.

Bird and Moxley, repeated approximately what they had said at the Friday meeting. Bird thought now was the proper time to go ahead, while Moxley, though ordinarily very much opposed to spending \$100,000, he, after having made many inquiries, thought the best thing to do was to go ahead.

St. John had given his stand and did not think it necessary to take up more time. The time to start the school was now.

Durham and Wadge introduced an amendment to the St. John motion. The amendment called for vote of the town. The amendment was lost, only the mover and second voting for it, while all the rest of the council voted in favor of the original motion.

Town Clerk Randall then read the by-law a second and third time, and Grimsby will have a new high school within the next six months.

## TWO WEEKS GRACE FOR FRUIT GROWERS TO SIGN CONTRACTS

**PLUMS IN PEACE RIVER**  
The first plums to be garnered in the Peace River country were picked from a three-year-old tree at the Beaver Lodge Experimental Farm, of good size and color, and most delightful flavor. The tree was secured in North Dakota and clearly demonstrates that the Peace River country is capable of producing hundreds of varieties of fruits that were believed by the skeptics to be impossible of maturity. Sand cherries, apples, and numerous other trees have come into bearing this year. So prolific has the growth of red currants been this year that the Canadian record was equalled for production per bush.

## NEW BUGLE BAND ESTABLISHED

"B" Company of 98th Regiment to Have Unit—Army to be Given Grimsby

Major Fred W. Utton, O. B. E. staff officer, M. D. No. 2, Toronto, was in Grimsby on Friday night March 13, to assist Major W. W. Johnson, D. S. O., M. C., etc., organize a bugle band, for B. Co., 98th, Lincoln and Welland regiments.

Major Johnson has been working on the scheme for some weeks and called a meeting for that night at which there was a good turnout, with the result that a band of twenty-one is assured—thirteen bugles, six snare drummers and one bass drummer.

The band will be in charge of Dummer Corp. Harry Clark, and a committee composed of Corp. Clark, Drummer John Gagan and Bugler Wally Phipps was appointed to look after further organization and recruiting. Another meeting will be held in a few days to which Major Johnson invites the attendance of any who wish to join as members.

Major Utton addressed the boys on "Co-operation, National Defense, and duty, the course of his remarks, said, "be hoped in the near future the Military Department would have a permanent armory in Grimsby. A complete list of the members of the band will be announced at the next meeting."

## IN MEMORIAM

SHAWER is loving memory of our dear son, Norman, who died March 14, 1920.

"Waiting, only waiting, till the hour shall come, when, with joy, we'll meet him in our eternal home."  
—Parents and Family.

## LOCAL TIRE FACTORIES ARE CONSOLIDATED

Lincoln Rubber Products At Grimsby and Premier Tire Plant At Beamsville, Under One Head—New Equipment Being Added—Both Plants Will Soon Be Operating.

That Lincoln Rubber Products limited with the new addition of the Premier factory at Beamsville, will soon be doing big business, is evidenced by the activities in both factories. A dozen men have been working in the Premier factory for some time hurrying out material in readiness for the opening of the Grimsby factory which is now commencing operation, which will soon be increased; the installation of machinery delaying the employment of a larger staff for some days.

At the local plant rebuilding of tires will still be carried on to some extent, but tire building machinery and equipment are being put in. Other equipment for manufacturing various lines of rubber goods is also being put in. Early in February the shareholders of the Premier company, approved the proposed deal, and on March 11, the shareholders of Lincoln Rubber Products ratified it. Since then the work has been rushed and within the next few days the working forces will be squared away for a good output.

J. C. McNeil who has been in the office of the Premier factory in past years will look after the office end of both businesses, and Robert Nicol will superintend for the Premier over both plants.

A description of each factory has appeared in The Independent in the past, that of the Premier being last fall. Little further machinery is needed in that factory, but considerable is being added to the Lincoln Rubber Products plant at Grimsby, which will be described in due time.

## BOYS ARE SLOW IN TOWNSHIP

Either the girls are independent or the boys are bashful in North Grimsby, for the vital statistics for 1924, show but two marriages.

During the year Clerk T. W. Altan registered thirty-four births and twelve deaths.

## PLEASE KEEP OFF THE GRASS

Now that spring is approaching and lawns and boulevards are at a tender stage, the utmost care should be taken to preserve the grass and soil from being uselessly damaged by either tramping or driving over it. Boys who drive their cars or vehicles over boulevards, ought to feel how much pride in keeping the town beautiful to continue this practice. If they persist in it, a sharp rebuke is due them. In any event, property on which much work and care has been spent should not carelessly be destroyed. Please keep off the lawns and boulevards.

## GOLD WATCHES PRESENTED TO CHAMPION PEACH KINGS

### MOVE TO GET VISITORS TO SEE THE FRUIT BELT

Hamilton Chamber of Commerce Wants An Annual Blossom Week—Would Help Trade—Municipalities in District Will Be Asked to Co-operate in Plan.

Despite the fact that Grimsby is situated in the very heart of the Fruit Belt, it has remained for an outside municipality to make the first move with regard to bringing the attention of the whole of Canada to the great natural beauties of this district. For years Blossom Week, generally the second or third week in May, has been one of the most beautiful attractions in the world, but few people outside of Hamilton, Toronto and the smaller towns between the Falls and Toronto have ever heard tell of the great abundance of blossoms that are abroad at that time. Grimsby and all the other towns and cities in the Fruit Belt have neglected to tell the world of this great sight, but now Hamilton has taken up the question.

The Hamilton Chamber of Commerce is going to try and do what the Chamber of Commerce and other bodies in the district have neglected to do. They are going to try and make Blossom Week one of the big tourist and sight-seeing weeks of Canada.

The Hamilton Herald on Friday night last carried the following article:

The retail trade committee of the Hamilton Chamber of Commerce has been giving considerable attention to the possibility of holding a Blossom Week.

Efforts are being made by the provincial government to urge the visit of Ontarians to various parts of their own province, and a definite effort will also be made to encourage the visit of United States tourists in large numbers. It was thought by the committee that the Niagara peninsula, being particularly beautiful during the period that the fruit blossoms are at their best, would be an ideal place for such a proper publicity, and a number of visitors, both from Ontario and the nearby States, induced to come here.

The committee discussed the methods of drawing this to the attention of those whom they wish to interest, possibly by the use of radio, showing suitable pictures in Toronto, Detroit and Buffalo Sunday papers, making arrangements with moving picture theatres of various cities to mention it on the screens; to ask the automobile clubs to write to similar clubs in the other cities, suitable stickers for buses, motor cars, etc. As the methods suggested entail the expenditure of a considerable sum of money it will be necessary to discuss ways by which this can be raised, and to submit the particulars to the board of directors of the Chamber of Commerce for their approval. The committee feels that if the effort is proceeded with, a meeting should take place between cities and towns between Hamilton and the Niagara frontier, as they are all equally interested. The date also is very indefinite, as it depends largely on the nature of the season just when the best period will be.

If a substantial number of tourists and others can be induced to visit this section of the country it will no doubt mean a considerable amount of business for the retail stores, the hotels and restaurants. The advertising features of the scheme, also, should not be lost sight of.

## NECK BROKEN BY WHIRLING SHAFT

Louis Culp, of South Grimsby, Fatally Injured While Working With Wood Sawing Outfit—Body Stripped of Clothing

At ten o'clock on Monday morning, March 16th, while assisting with a gang of men working with a circular saw to cutting stove wood at the home of Robert Pruner's immediately west of the village of Smithville, Louis Culp, a well-known resident of the Township of South Grimsby, in some manner lost his clothing catch in the revolving shaft which stripped every article he had on from his body from the waist up.

The men working with him according to report, apparently did not see the accident, until they discovered the unfortunate man lying beneath the saw frame, with his ear cut, his eyes open in a vacant stare, and unconscious.

Dr. Zambettin was hurriedly summoned by phone and later Dr. Zambettin, of Hamilton, was called. Unfortunately the man's neck was near-by, and passed away early Wednesday morning. He leaves a widow and large family.

Intermediate Champions and Temporary Allan Cup Holders Banqueted by Civic Officials and Citizens—Music, Song and Speeches—Beamsville Council Help in Festivities—A Big Big Night.

(By Mills)  
"The Banquet, at last is over and past; For the Hockey Club then Give Three Cheers—"

Well! They let others break into poetry at the dinner to the Peach Kings last Thursday night. But that dinner was rather a success. Some 200 odd sat down with the advertised and avowed intention of doing honor to the Grimsby Intermediate Hockey team—and they did it.

The Village Inn dining room was the scene, numerous were the actors, and good will and pleasantry was the opus.

When the Grimsby Intermediate team—the Peach Kings—won the Championship of Ontario it was deemed some achievement; but when they went still further and were nominally holders of the coveted Allan cup for a few days it was deemed right and proper that they should be appropriately honored.

Ways were discussed—let the means take care of themselves—and the town council did the handsome by organizing a public dinner to which all admirers of the team and its achievements were welcomed.

And not only to a dinner were they welcomed, but to witness the presentation of a gold watch to each member of the team meaning "Buddy" Fisher, "Mac" McVicar, "Jerry" Carson, "Pud" Reid, "Shorty" Horne, "Artie" Clark, "Burnie" Burnside, "Lance" Hayhoe, and "Bo" Farrell.

Over 200 responded to the call, and "When every one was seated, they started to layout the feast."

To the strains of music supplied by the Moonlight Serenaders orchestra and Harry Hillier as leader of singing, with Harry Campbell at the piano—two past masters at their work—and the evening never dragged.

To use that stereotyped phrase "when the finer men had been seated with the good things provided," ex-mayor Chas. T. Farrell took the chair as toastmaster, and carried through a programme well arranged by the town council.

The King, the Town of Grimsby, the Ontario Hockey association, Our Guests (Beamsville and the Hockey club), and Our Hockey team were on the toast list, and every man that responded left no doubt in the minds of his hearers that his praise was no mere matter of speech.

Mayor Livingston and Reeve Munnell of Grimsby, Reeve Tufford and Councillor Cosby, of Beamsville, Major R. H. Kidd, J. H. Wells, Archie Dixon, Harry Reid, and each member of the Peach Kings team, gave the meed of praise where it belonged.

Needless to say that need was given the members of the team; and each member of the team expressed pleasure.

(Continued on Page Six)

## LIBRARY NEEDS FINANCIAL AID

Town Council Committee to Confer With Township Council re a Large Grant—Catastrophic Franchise Causes Discussion.

The town council met on Wednesday night last and as a result there is a possibility that the Public Library will get some consideration.

A letter from H. A. Yennery, secretary of the library board, it was shown that the receipts were but \$1,700, while the expenditure for salaries, repairs, fuel, light, water, etc., amounted to \$1,397.61, which left but \$302.39 for books and periodicals. There are 2468 borrowers from the library. In this letter the secretary asked that the council increase its grant—now \$1,000—and Aldermen St. John and Bird seeing the necessity of the library getting more money, moved that the mayor and the chairman of finance (Burgoyne) meet with the library board, and confer with the township council in regard to library finances.

In recent years the town has been granting \$1,000 and the township agreed to give and has been giving an amount equal to one-half of the town grant.

Moved by Burgoyne and Durham "that the account against Richard Wadge appearing on cemetery accounts owing, be accepted at \$10."

Compensation granted by the town for twenty-five years in 1914, has been to settle the question the town will spend some money.

Burgoyne and Moxley moved "that Reeve Munnell take up with Mr. Marquis the legality, in a written opinion, of the franchise with the Hamilton Cataracts L. P. & Co., which was given by this town in 1914, and report at the next meeting."

Board of works accounts amounting to \$359.79, and fire and light to \$38.75—\$398.54 in all—were ordered paid.

tion it must be remembered that the companies  
composing the Atlantic Steamship Conference  
are highly organized and presumably in a position  
to pick up their full share of whatever is going in  
the way of west-bound cargo.

"Unlike land transportation, the seas are free  
to all who would use them. There are no perma-  
nent rights of way, there are no franchises. A  
ship is launched, she is properly registered, her  
house flag hoisted, and she is ready for business  
the world over. Be she Norwegian, British,  
French or what not, the seas are free and the  
ports of the world are open to her. If a free  
lance, that is to say a tramp, she is attracted  
where cargo is plentiful and freight high, but her  
infrequent calls, and her haphazard goings and  
comings, unless specially chartered, makes her a  
negligible factor in the great ports of the world.  
The strength of the Steamship Conference lies in  
the fact that their ships go where they are want-  
ed, and it remains to be seen how far Peterson &  
Co. can fulfill these conditions.

"A great deal of the criticism that is being  
bestowed on the alleged ocean shipping combine  
neglects to take account of the immense uncer-  
tainties of the shipping business, which is one of  
its outstanding characteristics. It is true that  
the steamship companies make big profits at  
times, but at others—as the owners of the Cana-  
dian Government Merchant Marine ought to  
know full well—they make big losses.

"An illuminating summary of these fluctua-  
tions in the affairs of them 'that go down to the  
sea in ships' was given in one of his recent books  
by Alfred Marshall, dean of British economists up  
to the time of his death. 'There is,' said this  
careful writer, 'even in peace time, about one  
year in ten, in which the net earnings of a ship  
about equal its total cost; but for every such year,  
there are several in which a great many ships  
earn far less than their costs of working.'

It is to be hoped that the Government ar-  
rangement with Sir William Peterson will work  
out, greatly to the advantage of Canadian  
shippers.

#### Ferguson's Fate:

The Toronto Globe and Toronto Star are  
in great distress over the future fate of Premier  
Ferguson—they are terribly worked up for fear  
that his actions with regard to the O.T.A. will  
bring him into bad repute in the country.

They are so upset over the wickedness of  
Premier Ferguson that I am sometimes led to  
believe that their distress is more apparent than  
real. As a matter of fact, I believe that the  
editors of these two papers are praying on the  
"outside" that Ferguson will not injure the  
O.T.A. and praying on the "inside" that he will  
injure the O.T.A. in order that it may help their  
political party.

Forty years' experience has taught me that  
a good line of conduct for a premier is to do ex-  
actly opposite to what his political opponents  
want him to do.

Ex-premier Hearst exactly what his po-  
litical opponents wanted him to do and he landed  
in the mud.

And by the way, a fellow by the name of  
Sam Clark got up in the Legislature the other  
day and tried to prove that prohibitionists did not  
black-jack Hearst, but I don't think anybody be-  
lieved him. The Liberal prohibitionists certainly  
didn't, for they individually know better, and  
the U. F. O. party didn't believe him for they  
individually and collectively know that every prohi-  
bitionist in their party voted against Hearst.

The only prohibitionists that voted for  
Hearst were those in the Conservative party—  
they stuck to their temperance principles and  
their party while everybody else went cake-  
walking.

No prohibition government ever did or ever  
will carry Ontario—simply because a majority of  
the people of Ontario are opposed to prohibition.  
Rowell, Hearst and Drury all went down on the  
question of prohibition or partial prohibition.

In the O.T.A. vote of 1919 less than 50 per  
cent of the people voted for the Act. In the  
O.T.A. vote of 1923 only 28 per cent of the  
people voted for the Act.

Ferguson knows this and that's why he is  
building that little 4.4 platform to stand on in-  
stead of the shifting sands of the O.T.A.

I talked to many Liberal prohibitionists—  
some of them ministers of the Gospel—in 1919  
and everyone of them told me that they would  
vote for their own party which stood for prohi-  
bition just the same as Hearst did. That was  
fine for party but not much good for Hearst.

In an open letter to Hearst I pointed out  
to him where he would land, if he depended on  
prohibitionists' votes—and he landed.

## FRUIT GROWERS GIVEN TWO WEEKS GRACE

(Continued from Page One)

for N. P. G. products and when it  
cost us so much to get this reputa-  
tion established it seems a shame that  
the company should be allowed to  
operate on the basis of the fact that in many  
western markets, N. P. G. goods were  
sought by the consumer.

Harper Secord, Grantham, second-  
er of the resolution, stated the com-  
pany represented the best method  
of selling the fruit crop. "This  
company constitutes the basis of re-  
lieving the fruit growers from their  
problems," he said, in urging that  
those growers who wanted the op-  
eration costs cut to 16 per cent, get on  
the right side of the fence and they  
would find their fears banished.

President Craie stated he had been  
aware of the resolution from Peach-  
land and had advised the Directors of  
it. Similar expressions of opinion  
were also received from other locals  
and considering these facts the  
Directors had felt that with 300 mem-  
bers, the closing of the Hamilton mar-  
ket and reduction of head office ex-  
penses, which would enable a saving  
of some \$17,000 operating costs, the  
company could continue.

It was moved by W. T. Sutherland,  
seconded by W. C. Nickerson:

"That the Board of Directors  
be empowered to use their best ef-  
forts to secure contracts for the  
season of 1925 on the basis of 15  
per cent, reduction from mem-  
bers' credits and payment to be  
made on the 15th of each month  
for the preceding months' de-  
liveries.

In the event of less than 300  
contracts being secured that the  
Board of Directors be and are  
hereby authorized to wind up the  
company's affairs, and that the  
26th day of March be the date on  
which such decision shall be  
reached."

The president declared that the  
Board of Directors had approved the  
resolution.

Mr. Sutherland said that the Di-  
rectors, in view of the sentiment  
attached to winding up the company,  
had decided to set a minimum of the number  
of operating members, and that  
the delayed payments to growers  
would help materially to reduce the  
cost of operation. "If the com-  
pany continues I believe that this  
year the company will show that it  
can operate with success," he said.

E. J. Mahony could not understand  
how money was lost on the Hamilton  
market unless it was the fault of the  
company. To wind up the Hamilton  
market would be a severe blow to the  
company, he said. He felt the decision  
to cease operations on the Hamilton  
market should be reconsidered.

Director Nickerson stated the di-  
rectors decided that the company  
could operate on 15 per cent if 300  
members were secured.

A. L. MacKay, manager of the  
Sterling Bank, Catharines, spoke  
of the benefits of the company and  
the fact that the bank managers  
view a stabilized market. The  
closing of the two co-operative or-  
ganizations, in fact, would effect the  
bank loans to growers, as without a  
stabilized market bank managers  
were unable to estimate what a grow-  
er might secure for his crop.

"To many it may seem a bolt from  
the sky that the decision to cease op-  
erations has been reconsidered," de-  
clared the president, "but personally  
I would be loath to see this com-  
pany cease operations. Smaller co-  
operatives would spring up, but they  
would be fighting between them-  
selves and the grower would pay the  
cost.

Lieut.-Col. Gregory wished a more  
definite resolution providing that the  
company continue in operation.

President Craie stated that the  
company would continue contingent  
on 300 members being secured. Thus  
far only 210 members were on the  
books.

H. L. Craie declared his resolution  
provided rescinding the motion passed  
at the last general meeting which  
would give the company 210 con-  
tracts, while the second resolution did  
not rescind the former motion, which  
cancelled all existing contracts.

Mr. Jas. A. Livingston felt that  
the motion passed at the last gen-  
eral meeting cancelling all contracts  
should be rescinded.

Mr. Allison stated how the com-  
pany could operate with 300 mem-  
bers at 15 per cent, when with 286  
members last year and 20 per cent  
taken, the company lost \$16,000. He

did not see how the \$16,000 and the  
\$26,000 owing to members of 1923  
could be met with the lower operat-  
ing charge.

The president stated the latter item  
was a deferred liability and was not  
to be met during 1925. "If the com-  
pany operates in 1925 every economy  
possible will be installed and the direc-  
tors feel certain the company can be  
operated at 15 per cent," he said. "It  
has been estimated that the 15 per  
cent, will provide \$72,000 for opera-  
tions and this amount the directors  
feel sufficient to carry the company."

Mr. Livingston remarked that a  
much greater turnover could be ex-  
pected this year by 300 members put-  
ting all their crop through the com-  
pany, whereas last year many mem-  
bers only put a portion of their crop  
through the company.

Asked regarding apples and grapes  
the president announced he would be  
in favor of last year's rate of 10 per  
cent, for these crops.

W. M. Stewart expressed the op-  
inion that the 218 contracts were not  
in existence, being cancelled at the  
last general meeting.

Lorne Sperra declared that the com-  
pany had four years in which to  
economize and that a man handling  
his goods individually could beat the  
company forty ways. "The liabilities  
are growing too large," he said, "they  
should be settled today."

Arthur Onslow upheld the criti-  
cism of closing the Hamilton market  
and felt a cheaper method of using  
that market could be devised. He  
asked if the treasurer could explain  
the deficit of the Hamilton market.

At this point Mr. Craie withdrew  
his resolution, stating that he was  
prepared to go out and secure new con-  
tracts in place of those contracts  
which had been cancelled under re-  
solution of the last general meeting.

Mr. Harper Secord agreed to with-  
draw the first resolution. He asked  
that the 300 minimum be drawn, that  
the directors might agree 290 large  
shipping members were sufficient.

The president held that a minimum  
number of shipping members was re-  
quired by the directors.

Mr. Schlenck expressed the op-  
inion it would be a great pity to let  
the company go down, reminding the  
growers of the high organization cost  
which would thus be lost. He urged  
the members to give the matter their  
best consideration before deciding to  
cease operations. The worst years  
are over, he said, and we should try  
another year at least.

E. G. McCallum suggested that the  
company should have 20 per cent for  
operation costs if that amount was  
needed. Speaking from experience  
he stated the company had gone  
through its most trying period, that  
it was on the right track and that  
success was in the offing. He was,  
however, inclined to fear the grow-  
er, but if the shipping members were  
in accord with the policy to ship, then  
he urged that the company should  
carry on.

He was assured that the meeting at  
St. Catharines was attended by only  
three non-shipping members and they  
did not vote.

The speaker did not think the 15  
per cent, should be laid out as a bait,  
for if the company lost money that  
cost would be increased.

H. L. Cummings advised the meet-  
ing that the contracts were still leg-  
ally in existence, not having been mu-  
tually cancelled. However, if it was  
the intention to proceed on a differ-  
ent basis than at present then a new  
contract would be necessary.

Asked if the directors could guar-  
antee a 15 per cent, operation, the  
president replied that while only death  
and taxes were certain a careful es-  
timate indicated operations could be  
carried on at 15 per cent.

Fred Walker stated that where a  
man was shipping to the commission  
market, that by the time he paid  
freight and cartage the amount to-  
talled over 20 per cent. This fact,  
he thought, should be drawn to the  
attention of the members who often  
only considered the 12 per cent,  
charges of the Commission market.

With a "def explanation" by the  
president the vote on the resolution  
was taken, it being stated by the president  
that new contracts had to be  
signed.

The result of the vote was 200  
ballots cast, 190 for and 10 against.  
By shares 281½ for and 19½ against.

The directors being requested for  
an official opinion re the 10 per cent,  
rate for apples and grapes met im-  
mediate following the vote and de-  
clared their intention of adhering to  
last year's rate for these commodities,  
which are shipped in bulk.

## WE'VE GOOD PLANNING

In a less enlightened age people  
I fought to safeguard their valuables. Often  
they placed them in a strong box which  
they hid in some secret place, hoping to  
protect them.

Today the safety and security of steel vaults eliminate  
the danger of loss by fire or theft, and give peace of mind  
for the safety of valuable belongings.

Documents lying unprotected in your house or office  
demand the security of a Safety Deposit Box.

## FAVORITE HYMNS AND THEIR WRITERS By Rev. Arthur Wallace

### "STILL, STILL WITH THEE"

It is doubtful whether America has  
ever produced another family equal to  
the one of which Harriet Beecher  
Stowe, the author of the hymn, "Still,  
Still with Thee," was a member. Her  
father was Rev. Lyman Beecher, him-  
self a famous preacher, and her bro-  
ther was the still more famous Henry  
Ward Beecher. Indeed, all the bro-  
thers and sisters of that large family  
were conspicuous for their ability.

In 1832 Harriet, who was then  
twenty years of age, went to Cincinnati  
with her father who had been made  
President of Lane Theological Semina-  
ry. While there she became the wife  
of Prof. C. E. Stowe, who was a man  
of great ability and a good husband.

While in Cincinnati, Mrs. Stowe often  
visited the slaves, and witnessed the  
escape of many to Canada. She became  
deeply interested in the movement for  
the emancipation of the slaves, and  
made a close study of conditions. In  
1851, she published her book: "Uncle  
Tom's Cabin." It appeared as a serial  
in the Washington National Era, and  
it was eagerly read on both sides of  
the Atlantic. By the end of the first  
year, one million copies had been printed.  
Up till the present it has been  
translated into twenty languages.

In 1855 Henry Ward Beecher pub-  
lished a hymn-book, in which there  
were three hymns by Mrs. Stowe.  
These were: "That mystic war," of  
Thine, O Sovereign Lord!; "When  
winds are raging o'er the upper  
Ocean," and "Still, Still with Thee."

Of these three the last named has be-  
come a classic, and is found in nearly  
every collection of hymns. It is based  
on Psalm 139:18: "When I awake I  
am still with Thee."

The hymn touches the depths of the  
soul's life. Mrs. Stowe's life was by  
no means out of the ordinary case. For  
many years she was in poor health and  
at times suffered from physical pain.  
Her husband had a complete break-  
down in health and while he was in the  
East seeking health, a scourge of  
cholera visited Cincinnati, and their  
youngest child died. Some years later,  
the eldest son, Harry, who was a student  
at Dartmouth, was drowned in the  
Connecticut river. Mrs. Stowe said  
that this was the most crushing blow  
of her life. Another son was wound-  
ed in the head at the battle of Gettys-  
burg. His brain was affected and he  
never was himself again. In spite of  
such a succession of severe blows, Mrs.  
Stowe maintained a firm trust in the  
Divine wisdom and goodness, and to  
her the most precious thing in life was  
a deep sense of God's continued pres-  
ence. It was this thought which sus-  
tained her amid the many afflictions  
through which she passed. All the  
stanzas of the hymn, "Still, Still with  
Thee," are of singular beauty. Here  
is the last one:

"So shall it be at last, in that bright  
morning,  
When the soul waketh, and life's  
shadows flee;

O in that hour, fairer than daylight  
dawning,  
Shall rise the glorious thought—I  
am with Thee."

# MAINLY FOR WOMEN

## CURTAINS ARE VITAL TO HOME

Should Be Simple and Well Hung—  
Practical Fabrics Are Suggested—  
—Euclid Batiste Popular—  
—Styles for a Bungalow

It is safe to say that there is no one item in the furnishing of a room that counts more in the general effect than the curtains. It is not necessary that they be elaborate or expensive. It is preferable that they be simple, but they should be well chosen and well hung. As to the cost of the material, that must be determined by individual choice. With a little judgment, the housewife may make and hang her own curtains with excellent results.

The fabrics here suggested by no means exhaust the possibilities, but they are among the most practical and one may feel sure of satisfaction in using them if properly made and hung. In estimating the amount needed, do not skimp the width. Allow for full ample folds, especially if the material is thin and sheer.

### Euclid Batiste Popular.

One of the least expensive is cheese-cloth—euclid batiste, some prefer to call it—white, cream or unbleached. Decorators are using a great deal of it, usually under the name of euclid batiste, sometimes doubling it to give

more body. The white comes 24, 37 and 36 inches wide, while the cream and the unbleached is generally 36 inches wide. Make bottom hem wide—two and a half inches to three inches will not be too much if no trimming is used. Hems at the sides may be of the same or less width. Weight the bottom corners. Simple cotton gimps—they cost but a few cents a yard—make excellent trimmings and add a touch of color and elegance. Black and white French gimps are particularly pleasing. For gimp trimming make hems both bottom and sides, not quite the width of the gimp and sew it on so that the fringe will just come free of the edge of the hem. Although the gimp gives body, it is better to weight bottom hem with shot or fine leaded type.

### Scrim Curtains.

Scrim is another desirable curtain stuff, but it comes in several weights and meshes of different sizes, and it is best to select a sort that has sufficient body. It is 36, 40 or 45 inches wide and is white, cream or ecru, and in pattern either plain, dawn or barred. The plain is generally preferable. It can be washed without being stretched afterwards. Scrim curtains may be made with a wide hem, the same as suggested for cheese-cloth, or with a narrow hem at bottom and sides, and may be finished with narrow cotton edging. Marquisette, bobinet and Brussels net closely resemble the finer scrim. Some of these are 36 inches wide, others of double width. Unlike scrim, they have to be stretched after washing. Figured net also makes

pleasing curtains and is 36, 45 and 50 inches wide. It may be trimmed with gimp, as suggested for cheese-cloth. The latter makes a better finish, worth the slight difference in cost.

### Other Fabrics.

Dotted swiss is highly effective with bands of colored sateen several inches wide sewed on a couple of inches from the edge at both sides and bottom, or else sateen of the same or slightly less width, turned over to give double thickness, may be used as a hem for the edges. It is both 36 and 50 inches wide. Sateen may also be commendable as a material for the whole curtain. With a wide hem at side and bottom, and the bottom weighted, it makes a good curtain for a large window. Case-moment cloth is still another excellent fabric, light enough in texture and color—it can be had in various hues, but white or cream are nearly always preferable—to take the place of thin glass curtains and yet with body enough to remove the need of inside hangings. Finish it either with a broad hem or edge it with gimp. It is 36 inches wide and either plain or with a self-toned stripe.

Japanese cotton crepe deserves special attention as a particularly desirable and inexpensive curtain material. It is soft and pliable, but has body enough to hang well. The colors are fast and the curtains can be washed without fear of their stretching, and they require no ironing or stretching; in fact, are better without it.

### For A Bungalow

Sundour, 50 inches wide, is always worth considering. It comes with self-toned figures or plain, the coffee color or ecru is particularly agreeable. It should be finished with broad hems at sides and bottom.

Monks' cloth might be used in a bungalow, a room with rough, gray walls, or any other place where a heavy-toned and heavy-bodied curtain is required.

Curtains may be made to hang the full length of the window, ending at the sill, or a pair of curtains may be made for each sash. The latter method has the advantage of making it easier to regulate the light. It is also agreeable and corrects the appearance of extreme height in a tall window. As a rule it is best to hang curtains not to hide the window trim but in a wide window or stage of windows, where the curtains take the place of hangings as well, this practice may be modified. Curtains of casement windows may be hung on rods attached to each casement or to the frame; for casements opening outward or made of metal, it is well to hang the curtains from rods fastened to the frame or jam a little way back from the glass.

While small curtains, whose tops can be easily reached may be hung without traverse rings and draw cords, it is always better to have them out of shape to draw them by pulling the sides. It is better to have fixed rings and pulleys at each end of the rod and two traverse rings attached to the inner sides of the curtains. A draw cord passing over the pulleys in the end rings is attached to the traverse rings in the middle. By pulling one cord the traverse rings are brought together in the center, the other rings follow; as the curtains close. By pulling the other cord the traverse rings are drawn to the ends of the rod, pushing the other rings as the curtains open from the center. When the curtain is attached to rings, instead of having the rod run through the heading, be careful to keep the top of the upper hem above the rod by making the attachment at the back of the hem, so that the rings will be hidden.

### TOILET TABLE

#### Eye Care

We tax our long-suffering eyes more completely than any other part of our wonderful selves. We overstrain them in a hundred ways, when we drive a motor at night in the dark, at the "pictures" and when we sit reading with our chairs facing the light instead of in a spot where the light will fall from behind us directly on to our book. At night-time we neglect the warning our eyes give us that they are tired; we are interested in our novel and nothing must hinder us from finishing that last chapter. Or perhaps we are travelling; and, again interested, we insist upon insulating our eyes by making them do duty as a particularly "bumpy" journey.

And then, by and by, when suddenly our organs of sight go on strike against the unfair treatment we have been heaping out to them for years, we are annoyed.

A boracic eye bath two or three times a day is most restful for tired eyes. Boracic crystals should be used, one teaspoonful to each pint of boiling water. The lotion should be used quite warm, and of course kept covered when not in use. It is a good plan to make it at a time and to bathe in each day.

If there is not an eye-bath at hand a small teacup is just as useful. Told the teacup up and when the eye is fixed firmly around the rim hold the head toward slightly and permit the eye to remain submerged for at least five minutes. For the other eye the lotion should be changed. Do not dry the eyes, but gently dab the surrounding parts with a soft towel.

## WOMAN'S LETTER WILL HELP GRIMSBY

She writes: "I hated cooking because I drank hot water and formed by the gallon. Nothing helped until I used Adlerika." Most men, and only on lower bowel, but Adlerika acts on BOTH upper and lower bowel and removes all gas and poisons. Excellent for obstinate constipation. Helps any case gas on the stomach in TEN minutes. Leslie J. Farrell, Grimsby and Grimsby Edit.

## NEW SCHOOL TO COST

(Continued from page one)

Debtors on \$7,000 (land)	602.49
Maintenance	16,000.00
Total	\$23,483.03
Receipts:	
Grant, Government	\$2,052.00
Grant, Lincoln County	8,552.40
Grant, Wentworth Co.	2,571.72
Rebate from Lincoln	1,400.00

Total	\$14,596.12
Annual cost to town	\$8,886.91
Cost of present school	7,480.95
Extra cost to Grimsby	1,405.96
Extra Cost of Public School Education	\$1,695.00
Present H. S. debtors	600.00
Extra cost of H. S. debtors	350.00
Extra cost of H. S. debtors	1,406.00
Miscellaneous	200.00

Total extra cost of High and Public School Education, \$4,251.00

The statement is very clear, and it was shown that the estimated figures were very conservative. The item of another teacher appearing in the statement of cost of present school would be imperative whether a new school were built or not, the present staff being greatly overworked.

In the statement of the annual cost of the new school the figures of the town of the government are fixed by law, and in the case of the County of Lincoln the figures are also fixed except the payments for county pupils attending the school.

In the Wentworth county figures it will be noted that \$128 was paid last year, while the estimate in the second statement is \$2571. There are at the present time nineteen scholars attending from Wentworth and the estimate allows for six more. But there are about ten times that number attending Hamilton schools that the township of Saltfleet is very anxious to have attend the Grimsby school as it would mean a saving to them of \$4500 annually. And will add \$6000 to the income of the Grimsby school. But allowing for but 60 per cent, of that number it would mean that the last item of the statement would be wiped out entirely and that Grimsby will have the added educational facilities which the new school will provide, and at not a cent of extra cost to the town.

Saltfleet township wants to get its pupils started here this fall and if Grimsby can not accommodate them it would be almost necessary for that township to build a school. If the money were not granted now so the school could be finished in time for those pupils Grimsby might lose them for good.

That is approximately the explanation given the statement by Chairman Williams, and when Mayor Livingston asked the aldermen for an expression of their views the responses showed that most of the aldermen saw the fallacy of the statement. Reeve Maunell did not see, however, and when it was pointed out that the town for a hundred thousand dollars without vote of people.

Alderman Medley said that after reading the statement and hearing the explanation of conditions in the public school, he could not see anything to do but to vote against the proposition. Alderman Wadsworth was to take the responsibility without a vote. Alderman St. John was outspoken. He had come to the meeting almost convinced that it was not necessary to build a school and was prepared to vote against granting the money, but after hearing the discussion and the explanation of the absolute need of building, he was convinced otherwise. The statement was most lucid, but at that it would take a "lot of explaining to some of the voters, and if the by-law was defeated it would mean that the town would have to go ahead anyway and pay for a new public school all in one year. He could see no reason why the council should not grant the money and go ahead with the work. Alderman Durham had little to say, but said it plainly. He was against going ahead.

Alderman Bird thought the statement was very fair. He saw that a public school was a necessity and though he had come with a different opinion he was now prepared to grant the money and go ahead with the work at once.

Alderman Burgoine felt he was like to be governed by the mayor's opinion, and the mayor made his position plain. He was in favor of going ahead at once. He had not formulated any decided opinion until he came to the meeting and got the full data, but having learned all the circumstances and conditions, he felt it would be a mistake to defer the decision of the council for a moment longer than necessary.

Manuel then drew up a motion, which Mayor Reeve moved, to the effect that the clerk be instructed to prepare a by-law to be submitted at the meeting of the council on Monday, March 16.

As finally adopted by the board of education the plans for the new high school are simple. As most are aware the property that has been purchased consists of about four acres of the clergy reserve facing on St. Andrews and Bloor avenues. The building will be placed thirty feet from Bloor avenue and 150 feet from St. Andrews, the bowling green at the north of Parish hall becoming part of the lawn of the school. The boys' entrance will be on this side and the girls on the north.

The building is designed in a manner to suit present and near future needs, and also so that additions may be made with no alteration to the present proposed building.

The stairways are located so as to be independent of future additions; a boiler room and fuel storage are so as to allow of expansion; steam and ventilating ducts will afford ready connections for extensions; the administration and toilet rooms located with full regard to future expansion, school will have accommodation for from 250 to 280 scholars and the wing as provided for the plans will accommodate another 150.

The basement is divided into girls' and boys' portions with separate stairways. A serving kitchen is provided, where scholars who bring lunch can be provided with what is needed. It is provided with rolling doors which open into the lunch rooms of both portions. Here too is a vault, convenient to the principals office, for keeping of valuable papers.

In the basement also is a gymnasium 38 x 75 feet, which will be underneath the assembly hall.

On the first floor are three class rooms 23 x 30 feet; the principal's office; the library or board room; waiting room; and store room.

Over the gymnasium will be an assembly hall capable of seating about 600. It will be equipped with a stage and there will be sliding doors at the rear so that the main corridor may be used for seating, if required, on special occasions.

On the second floor there are practically five rooms. There are two standard class rooms 23 x 30 feet, one room 23 x 25 feet, a commercial room 23 x 22 feet and typewriter room 12 1/2 x 23 feet; the science room being provided with store room adjoining. On this floor too are two teachers' rooms with toilet facilities and cupboards.

The square feet of surface occupied by the building will be about 8500 which would mean that if the building were a plain square it would be about ninety-two feet each way.

"What does this mean, sir?" said the boss to the man coming in a half-hour late.

"It was on account of the awful fog this morning, sir," the fellow explained.

"Fog, fog!" expostulated the boss, "why, what has the fog to do with it? You do not live across the bay."

"No, sir, I know I don't; but you do, and I thought you would be late."

At last Brown had found a flat. The landlord was just asking him a few questions. "Of course you have no children?" said the potentate. "Dogs or cats?" "No." "Piano, pianola, or gramophone?" "No, but I'll tell you what, I've got a fountain pen that squeaks rather badly every time I use it. But I'll get rid of that if you like," answered Brown.

A very fat man got into a bus. He almost smothered a sour-faced little man when he sat down. The sour-faced man glared at him and growled. "They ought to charge by weight in these buses." "In that case," belittled the fat man, "it would not be worth while stopping to pick you up."

**DR. THOMAS' ELECTRIC OIL**  
A SAFE AND SURE REMEDY FOR ALL THE COMMON AFFLICTIONS OF MAN AND BEAST. IT SHOULD ALWAYS BE KEPT IN THE HOUSE AS A FIRST AID REMEDY FOR SUCH AFFLICTIONS AS HEADACHE, RHEUMATISM, BRUISES, SCALDS, BURNS, AND ALL THE AFFLICTIONS OF THE SKIN. IT WILL RELIEVE THE PAIN IN A MINUTE. IT IS THE ONLY OIL THAT WILL RELIEVE THE PAIN IN A MINUTE.

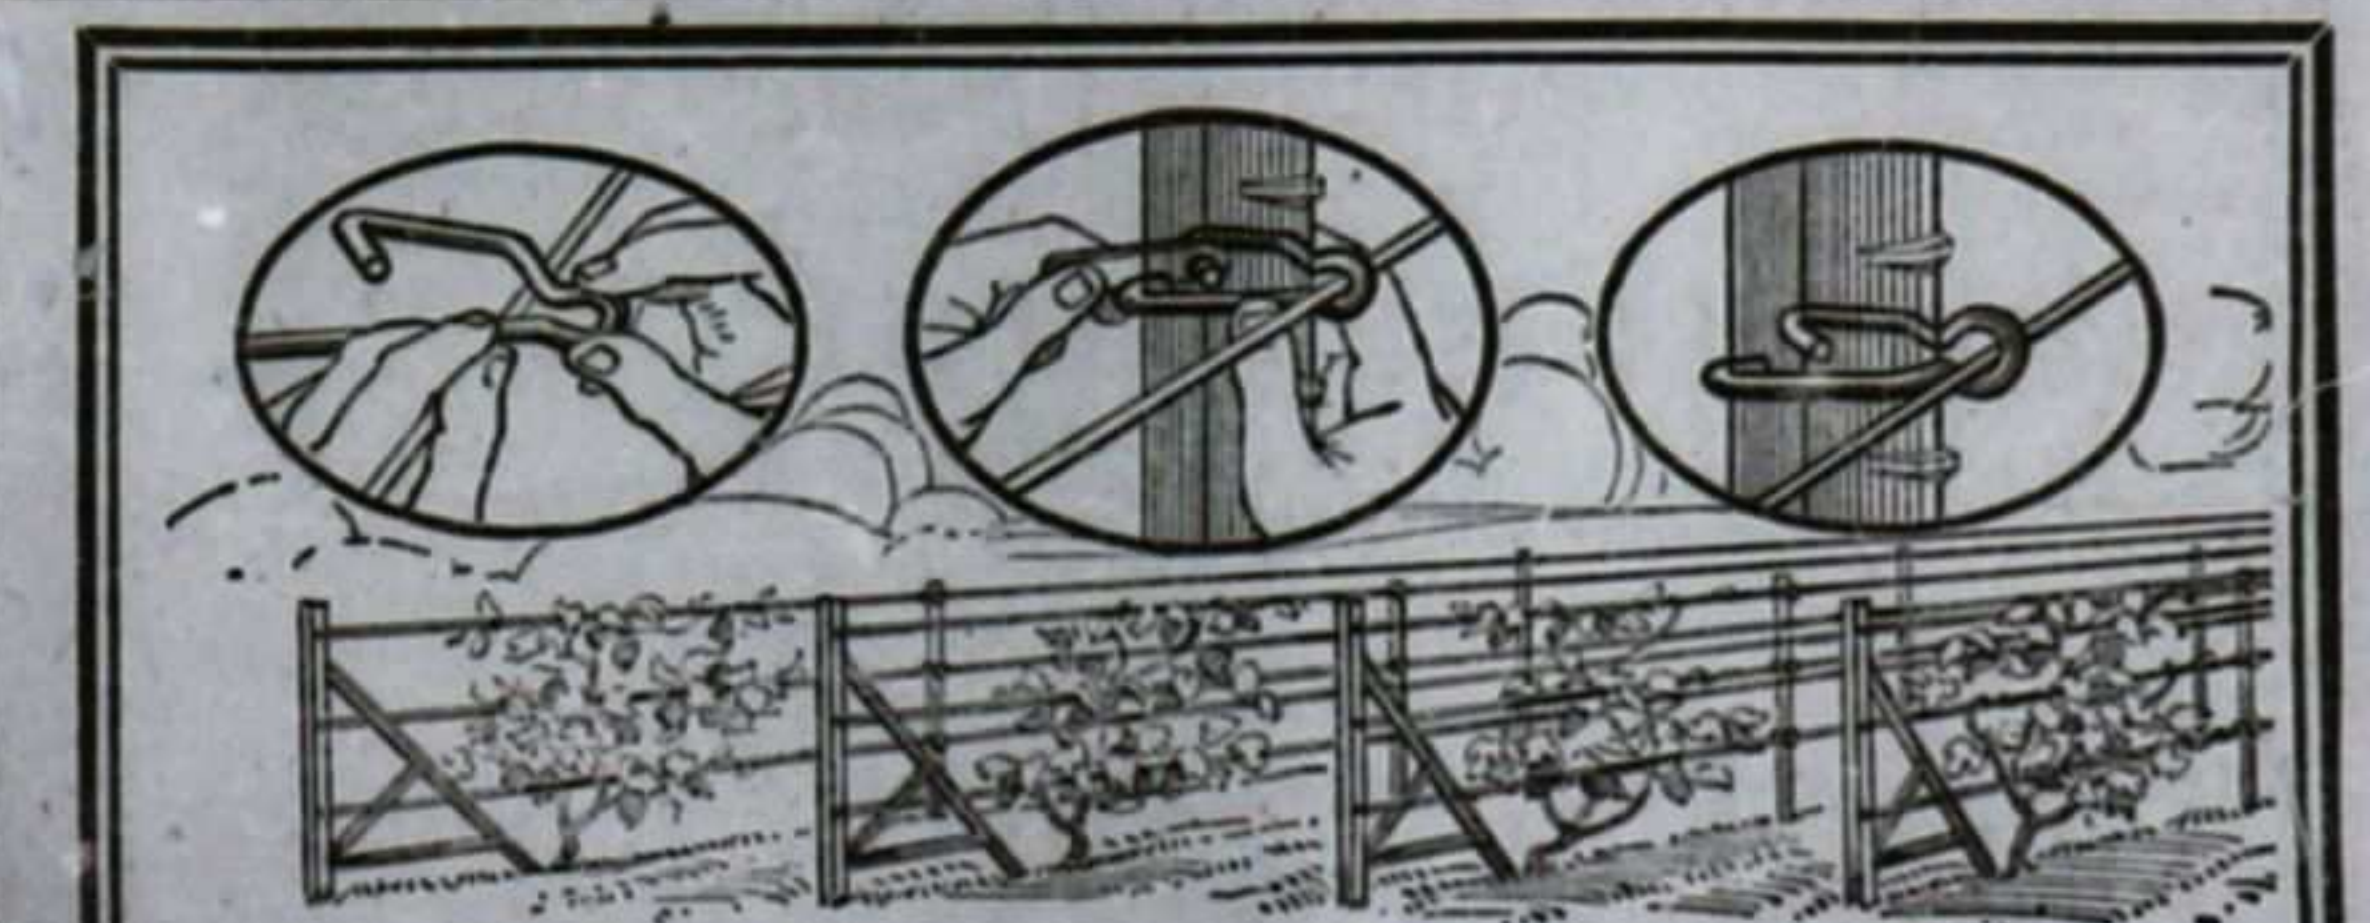

## MORE EGGS from Each Hen

March 21st, 1925

## Direct Toll Service to Hamilton

On and after March 21st, to telephone any number in Hamilton you need not ask for Long Distance.

Give the number wanted to your local operator just as a local call. Do not hang up the receiver but hold the line while connected.

Direct toll service is available only on Station-to-Station calls, that is, where you ask for a number rather than a person. If you do not know the number, ask "Information".

The rate is 15 cents for a three-minute talk to Hamilton.

If you must speak to a particular person, ask for "Long Distance" and give her the details of the call

E. J. Le PATOUREL, Manager.

### Local Items of Interest

The organization meeting of the Girls' auxiliary of St. John's Anglican Church, Winona, has been postponed to April 2.

Benjamin High, a life long resident of Clinton township died at his home there on Monday last. His widow and three sons survive.

The regular monthly meeting of the Women's Institute will be held in their rooms, 25 Main St., on Tuesday evening, March 24th, at 7.30.

Vernon Tuck is closing out his stock of jewelry etc., by public auction and will continue in the exclusive practice of optometry.

**12.15 FRIDAY VILLAGE INN**

Don't overlook the auction sale of High Class pure bred Holstein cows, heifers and calves at Cecil Tuck's farm (The Alway Farm) on Friday, March 27th.—See bills.—Jas. A. Livingston, auctioneer.

Police Magistrate Capt. W. W. Kidd, left on Monday on a business trip to Western Canada. He will be gone a couple of months, during which time magistrate Campbell of St. Catharines will act.

The Rev. John Samuel, leader of the Hamilton elisteddred, will be in Winona on Friday for the purpose of conducting St. John's church choir in a practice of the sacred cantata, "Penitence, Pardon and Peace," to be given on Thursday April 2.

About fifteen people from Grimsby attended the lecture on Russia, given by Baroness de Hueck, in Community Hall, Beamsville, on Monday evening, March 16. Baroness de Hueck came under the auspices of the Lena Davis Chapter of the I. O. D. E.

The Rev. J. M. Crisall, a returned missionary from work among the Indians and Eskimos, will speak at St. John's church, Winona, on Sunday morning, March 22. Mr. Crisall was very successful in his missionary work and is an unusually gifted and original speaker.

Grimsby Peach Kings, without the services of McVicar, were visited by Stratford Indians 5-1 in the Grimsby City on Monday night. Stone and "Red" Farrell were used. Carson wrenched his injured shoulder again while Horne had to leave the ice at the end of the first period with a bad skate cut.

W. H. House, 162 Main street west, lost the tips of the index and middle fingers of his right hand in a trimmer at H. H. Farrell and Sons basket factory on Saturday morning. He was running the machine for rounding the corners of basket bottoms and got his hand too close to the end.

HAMILTON, MAR. 16.—(By-By) Butler, Canada's oldest printer and known widely in this country and in the United States as a writer, died last night at his home here aged 92. He was at one time American vice-consul for Hamilton. In the newspaper world he had been everything from printer's devil to editor and proprietor. He was a veteran of the American civil war.

Those who heard this gifted speaker tell in her simple sincere way of her experiences through the war at the Russian front as a nurse, also of the Revolution, of the Bolsheviks, of her personal sufferings—will have a new understanding of Russia's attitude during the War, and of her condition then and now under the Bolshevik regime. Baroness de Hueck paid a most glowing tribute to the kindness of the Canadians in their reception of the Russian refugees.

An interesting programme has been arranged by the Educational Committee, Lincoln Loyalist Chapter, I. O. D. E., to be given at the Village Inn on Thursday, March 26th, at 8.15 p.m. Mr. F. F. MacPherson, Principal of the Hamilton Normal school, will speak on "Taking Things for Granted;" the topic deals with important phases of Citizenship; local musicians will contribute to the programme. All members of the chapter, and citizens in general are cordially invited to attend.

Spring according to rule begins at 12 p.m. on Friday, March 20. Let us hope it is not delayed by a snow storm. Navigation from the port of Port Dalhousie established a record this year. Deep sea ships cleared from this harbor weeks before any previous record. Several deep water carriers left the harbor last week billed for Cuba and other foreign ports. The boats entered the harbor light and left in a short time with a full cargo. The cargoes of wet goods arrived over the Old Welland division of the C. N. R.

The funeral of Mrs. Joseph Tweedie, took place from the residence of her son-in-law, John Hill, at Hamilton, Friday afternoon, interment being made in Hamilton cemetery. Mrs. Tweedie, who was very highly regarded in the Winona district, passed away on Wednesday, after an illness of several weeks, and was in her 73rd year. The deceased, mother of Mrs. John Hodge, of the Fifty Methodist church, and, though having made her home with her son-in-law in the city for some time past, was widely known throughout the fruit district, where news of her death was received with deep regret.

#### CARD OF THANKS

Mr. and Mrs. C. J. Love and family, wish to express their sincere thanks to their friends and neighbors for the many acts of kindness and words of sympathy extended to them during the illness and death of Mrs. Love's mother, Mrs. Margaret Dixon.

### BEAMSVILLE IS TO BE UNION

Controversy of Past Two Months Is Settled—Hundred and Sixty-Seven Votes Polled

By a vote of 164 to 84, the Beamsville Presbyterian church agrees to enter the United church. One hundred and ninety-seven votes were polled; there were five spoiled ballots. This ends the controversy that has been going on in the Presbyterian church circles the last couple of months. The last day's voting began at 7 o'clock and the polls closed at 9. The results were announced shortly afterward. There was no demonstration.

### MOORE'S THEATRE

Wed, March 25th, "Christine of the Hungry Heart" with Florence Vidor and a comedy

### COUNCIL AFTER DELINQUENTS

North Grimsby township council met on Saturday last, March 14. The report of Engineer Rutherford in regard to alterations in assessments on Beach waterworks, was received and adopted, all changes being made insofar as it is possible.

Tax collector W. A. Patterson made a report on delinquent taxes, and some who are delinquent the issue are liable to be brought up short. There are still a number of delinquents, many of whom are considered well able to pay, and the council instructed the collector to use every endeavor between now and next meeting to collect and make them still unpaid at that time. The council will be ordered to collect.

Accounts to amount of about \$600, were ordered paid, including some \$25.00 for roads and bridges.

### In The Churches

#### BAPTIST

Rev. T. E. Richards, R. A. Minister Sunday March 22nd.

The services on Sunday at 11 a.m., 2.30 and 7 p.m. will be conducted by the McMaster University Evangelistic Band and Quartette. The Saturday night meeting at 8 o'clock will also be conducted by the Band and Quartette. The public are cordially invited to all these services.

### A STRONG BOARD

The membership of the Lincoln County Mothers' Allowance Board this year is a particularly strong one and will give faithful service to those they have been appointed to serve. Those appointed are D. H. Moyer, Vineland; J. E. Masters, Niagara-on-the-Lake; Mrs. James Hudson, Beamsville; Mrs. Edward Fry, Vineland and William Richardson, Merriton, who has been appointed secretary.

The board would consider it a favor if a person knowing of a case needing their attention would call upon any member and advise them of the facts of the case, so it can receive the attention it deserves. It is not necessary to see any particular member, as any of them can take up a case.

### Obituary

#### LAID AT REST

The funeral of E. G. Callum was held Friday, March 13, from his residence, Main street east, and was very largely attended. Rev. L. H. Canale, of Toronto, and Rev. F. S. Milliken, pastor of St. John's Presbyterian church, had charge of the service. The floral offerings were very numerous, showing the high esteem in which the deceased was held. The pallbearers were James Atchison, E. W. Kitchen, George Leslie, H. Bowen, L. A. Wade and John Hunter. Interment took place at Queens Lawn cemetery.

#### Mrs. SAMUEL DIXON

The death of Mrs. Samuel Dixon occurred at the home of her daughter, Mrs. C. J. Love, 21 Depot street on Thursday morning.

The deceased lady had reached the ripe old age of 82 years, and had been in the best of health up to two weeks ago. She was born in North Augusta township, living there 16 years, taking up her residence in Maryborough township, Wellington county, where she spent her whole life, moving here just two years ago.

She leaves two sons, living in Saskatchewan and two daughters, Mrs. Joseph Walker, Hamilton, and Mrs. C. J. Love. The funeral left by motor Friday morning, taking the train at Hamilton for Moorefield, where interment took place.

#### JAMES A. HEWITT

Death called away on Saturday March 14, 1925, one of Beamsville's most estimable citizens in the person of James A. Hewitt, in his 73rd year. For years he had resided in Beamsville, coming from Grimsby to establish a planing mill and building business. Mr. Hewitt came to Grimsby in the early eighties and established himself as a builder, much of his work being done at the then Grimsby Park, notable among his works being the pantheon recently torn down. While in Grimsby he was a member of the village council in 1892 and 1894, while in 1901 he was reeve. As an ardent member of the Methodist church and superintendent of the Sunday school he exercised a wide influence for the betterment of his fellow men. He had been chairman of the Beamsville board of education and an energetic member for more than five years. Deceased was also a member of the public library board and its chairman. In all matters of advancement of the advancement of his place he was in the front of his activities wholeheartedly. He will be remembered by many of the old boys and girls who were in attendance at the 1920 reunion; on this occasion he left nothing undone as chairman of the committee to make the celebration an auspicious one. Mr. Hewitt was born in London, Eng., and came to Canada 55 years ago, coming to Oshawa.

His widow, one son, James, of P. O. Box 10, and two daughters, Mrs. S. F. Ruse of Beamsville, and Miss Ethel, of Toronto, survive.

The funeral took place on Monday, March 16, to Queens Lawn cemetery, Grimsby, the Rev. George Smith of Beamsville Methodist church officiating.

#### FRATERNAL VISIT

About seventy-five members of Minerva lodge, I. O. O. F., paid a fraternal visit to Grimsby lodge, No. 369, I. O. O. F., Monday, March 16. The degree team of Minerva lodge exemplified on a class of candidates in a most creditable manner. The officers accompanying the members were: Gordon Fewster, noble grand; P. D. D. William Brooks, P. D. D. John Ayers, of district No. 24, William Mitchell, district secretary, No. 34; and Samuel McKenzie, chief patriarch, of Burlington. At the conclusion of the degree work a programme by the different lodges was given, after which a banquet and toast list filled in the ball of the evening.

One of the good people who live here, said the hotel manager sadly, "I can't regard our spoons and forks as sort of medicine—to be taken by meals."

## MAHONY WOULD STOP DUMPING

Member for South Wentworth Aims to Prevent U. S. Vegetables and Fruits

Protection, by way of an amendment to the Municipal Act for dealers who have to compete against low priced fruit trucked in from the United States and sold, is contained in the bill yesterday introduced to the House by T. J. Mahony (Conservative, South Wentworth). The bill provides for the licensing, regulating and governing of persons whose names are not entered on the assessment roll for the then current year in respect of business assessment and who go from place to place or to a particular place to make sales or deliveries of fruits and garden produce to a retail dealer, where such fruits and garden produce are not the growth of Ontario and provide also for the payment of a license fee by such persons before commencing to trade.

## WANT TO RENT BOOTH SITES

Since announcement of the government's attitude with regard to stronger beer, highway frontage in Stoney Creek section as well as other districts throughout the fruit belt has become decidedly popular among people looking for refreshment booth sites, and it is understood that a number of deals have been completed.

In most cases it is merely a question of rent, as few seem ready to purchase the property outright.

In this connection it might be mentioned, however, that the government's policy with respect to licenses covering sale of the stronger beer has not as yet been announced, and it is thought highly improbable that such permits will be handed out indiscriminately.

## GROW ALFALFA

### Soil

The first requirement for a good crop of alfalfa is a well drained soil. If it is rich and heavy so much the better, but don't think it cannot be grown on poor soil. It is adaptable to all kinds of soil and can be grown on most ordinary farms. It must have good drainage; because the roots go down deep and will not stand in free water.

### Seeds

Good seed is nine-tenths of success with this crop. Seed imported from climates warmer than our own may germinate and make a good stand the first season only to be killed the first winter. Secure hardy native grown seed which has become acclimatized, or northern grown seed. Ontario Variegated or Grimm is the best variety to use—purchase your seed from a reliable source and inoculate it.

### Inoculation

While this plant is a legume and has power of taking nitrogen from the air it must be supplied with the proper kind of bacteria to start this process. It pays to inoculate and the easiest way to do it is with cultures obtained from the Bacteriology Department, O.A.C., Guelph. Full directions are contained with the bottle and anyone can treat their own seed.

Barley is one of the best crops to seed this crop with, but it can be seeded with any grain crop. Your fields should be fairly clean to start with but don't give up because they are not—the chances are the alfalfa will beat the weeds out. The rate of seeding varies with locality, but in view of the high price of her clover this year I feel like recommending a seeding of ten pounds alfalfa and four pounds alsike per acre. Three years ago one man sowed an acre with the following mixture: seven pounds alfalfa, five pounds red clover, four pounds timothy and two pounds alsike. The red clover and timothy disappeared the second year and last year this cut two and a half tons per acre mostly alfalfa.

The first winter is the critical time of alfalfa and it would be good practice to give it a light top dressing with manure the first fall. This tends to hold the snow for protection and at the same time furnish plant food for the young plants in early spring. Do not be too much alarmed if the stand is rather thin, say a plant every six inches or so, as you will be surprised later on as to the way it will thicken up.

It pays to run the disc harrow over the field every spring on meadows over one year old as soon as you can get on it and before growth starts. A spring tooth drag harrow with special teeth is an ideal implement for this purpose. This cultivator loosens up the soil, cultivates the plant, kills weeds and makes a mulch for the alfalfa. Do not worry about killing it, as you cannot do it this way and the results will surprise you—W. S. Van Every, Agricultural Representative.

Mrs. White: "Don't you know Mrs. Grey? She lives in your square?" Mrs. Black: "Yes, but she's not in my circle."

Judge: "Have you good grounds against this man for your breach of promise suit?" Litigant: "Deed I has! Ah promised myself to marry dat man, an he ain't asked me to."

"They tell me Henpeck is very musical." "Oh yes. Why he's played second fiddle to his wife for years."

"He—I have an idea." "She—P. good to it. It's in a strange place."

"How would you classify a telephone girl? Is hers a business or profession?" "Neither. It's a calling!" "He! I would give lots to make you happy." "She! Vacant or improved?"

## Slats' Diary

By ROSS FARQUHAR

Friday—went to a party tonight and we staid way late.

After ten o'clock we went home before we went home. I met a rather new girl. I all ways seem to get along better with new girls than I do with the ones I have known for a long time. The way I do is to start in and try to make them believe they are beautiful.

Saturday—Pa went a round and paid up a lot of bills today. Then some ma and she heard they was sum suspicious characters in town and that he must be sure to lock up the house good before he went to bed. Pa sed. Well if any burgulars gets into the house now why about all they wood get was a little practise.

Sunday—Pa brot a new book home from the Libry and Ant Emmy wanted a book to read, but when she seen this was David Haren why she slung it back down on the table and sed at she diddnt want to read about no no Turks and Ect.

Monday—well Ant Emmy is as Craazy as the rest of them on Cross word Puzzles here of lately. To nite she was vinking I and she sat Pa if a ma witch has set I wife to many was all ways a Bismies Pa looks a round and sees that ma has went out of the room and then he answers in reply and sed. No not all ways.

Tuesday—Pa was a telling Mr. Gillem what a grate thing Cross word puzzles is. He sed. Why Gillem it gives you a offul nollidge of new wiro. Mr. Gillem sed. Well I don't need no new wiro because the wife with who I ben living with of late years dussent give me no chance to use the wiro I all redidy go.

Wednesday—Pa and me had a good jaff today. Ant Emmy has ben a trying to reduce herself from getting so fat and sed. And last week she sent off to a male toter house for a book called the Diet of Worms. She sed she diddnt think shed wood try it buy she sed to see what it had to say according to what pa says it sed about what she thinks it is a tall.

Thursday—Sick. No dry to rite.

## AUCTION SALE DATES

FRIDAY, MARCH 27—On this date I will sell by public auction on the property of Cecil Tuck, on the Alway farm, Ridge Road, North Grimsby, the pure bred registered fully accredited Holstein cattle. Sale at one o'clock sharp. Terms Twenty Dollars and under cash; six months credit; five per cent off for cash on terms over Twenty Dollars. Jas. A. Livingston, Auctioneer.

1,200,000 STICKS OF WRIGLEY'S GOLD PER DAY

That's what advertising is doing for Wringley's in Canada. Newspapers, magazines, bill boards and street cars all carry Wringley ads.

Not only does the buying public respond in this generous measure but nearly 100 per cent of the possible dealer outlets realize the possibilities of profit from the sale of an article with such popular demand and put the Wringley display case in the counter where it is handy to the customer.

W. S. Van Every appreciates the value of the subtle suggestion of having Wringley's handy when the customer is getting his change so he, too, does his share in advertising the product.

Wringley's advertising has out chewing gum on the map; it has become a necessity, recommended by physicians and dentists. Doctors say that the chewing of gum releases juices which aid in digestion and promote better health. Dentists urge us to use of Wringley's to remove food particles from between the teeth and to massage the gums.

Wringley's success is another exemplification of the old saying, "To him that hath." Wringley has faith in advertising and he is reaping his reward.

## DEPARTMENT HOLDS DANCE

Grimsby Firemen Celebrate St. Patrick By Worsh'p of Terpsichore

The members of the Grimsby Fire department held a successful St. Patrick's dance on Tuesday evening in Independent hall. About sixty-five couples were on the floor enjoying both modern and old time dances. The Norton orchestra and Hills orchestra were each heard for the different dances. Andrew Hill doing the prompting for the set dances. Supper was served at midnight.

## LITERARY DAY HELD BY I.O.D.E.

The regular literary afternoon of Lincoln Loyalist chapter I. O. D. E. was held in the Village Inn auditorium on Friday, March 13, and was a most pronounced success.

It was a "Kipling" afternoon and Mrs. F. S. Milliken gave an interesting paper on "Rudyard Kipling: His Life and Works", illustrated with a song "The Gypsy Trail", by Miss Cossett, both being well received and much appreciated.

Mrs. Briscoe read a paper on "Current Events throughout the World". It touched on recent events as reported by the papers from various parts of the earth; Grimsby, other parts of Ontario, and of America, Asia, Africa and Europe. Among the articles quoted was a reference to the Grimsby Intermediate hockey team in the Christian Science Monitor of Boston.

A reading by Mrs. Wells "How the Camel Got His Hump," and a song by John Pettit of Fruitland, "On the Road to Mandalay", added much to the pleasure of the afternoon which closed with afternoon tea and the National Anthem.

A few smiles are being enjoyed in church circles around Winona.

On Saturday a Hamilton organ firm was asked to tune and make some adjustments to the organ at Fifty Methodist church. A man was promptly assigned to the work, but he tuned the organ at St. John's church and sent the account to the officials of the Fifty, where the organ was practically out of commission for the Sunday services.

But that is not all. About a week ago it was found that the plumbing in the Methodist parsonage was in need of repairs. A man was sent for and the work was completed, but the account was sent to Rev. H. A. West, of St. John's church.

Perhaps church union is being taken too much for granted.

Tree Growing

Can you make one tree grow where there is none growing now? This question is very pertinent one and one that can be asked of every citizen of this Province. The art of tree growing has in a measure gone out of fashion and as a consequence we suffer every year from drought, wind injury and small fuel and timber supplies.

There are many acres of land in this County which cannot be cultivated and farmed properly and profitably but which could be planted to forest trees with profit. Much of our valuable timber lands are cut off every year and no effort made to perpetuate a future crop.

The Ontario Forestry branch has just informed us that they distributed over 2,000,000 trees free of charge last year and that they have over 6,000,000 to send out this year.

Some very interesting bulletins on trees their care and planting, have been received at this office and we will be glad to furnish any one with a free copy or render any other assistance possible to clothe this Peninsula with a growth that is both beautiful and profitable.

W. S. VAN EVERY, Agricultural Representative.

SERVICES AT BAPTIST CHURCH

Large congregations were present at the Baptist church on Sunday to hear the Hamilton Business Mens Quintette sing and speak. The quintette is composed of Messrs. Rallie, Rushton, Frid, Kerr and Mochrie; all business men of the city of Hamilton, who have for a number of years been conducting services wherever opportunity afforded. Their musical selections were well chosen, the parts blending nicely and were well received.

Their visit to Grimsby was part of the program of the two weeks evangelistic campaign being conducted at the Baptist church. Two citizens will no doubt take advantage of hearing the quintette this Wednesday evening when they will have charge of the service.

Rev. L. W. Bowen, pastor of English St. Baptist church, Hamilton, was the special speaker on Monday and Tuesday evening, and Rev. T. Fears of Dundas, will speak on Thursday night. There will be no meeting on Friday night.

The concluding meeting of the services will be conducted by the McMaster University Evangelistic Band and male Quartette, of Toronto, who will conduct meetings on Saturday night and at all the services on Sunday.

The services are being well attended and much blessing and spiritual uplift is being experienced.

"Farm products cost more than they used to."

"Yes," replied the farmer. "When a farmer is supposed to know the botanical name of what he's raising, and the entomological name of the insect that eats it, and the pharmaceutical name of the chemical that will kill it, somebody's got to pay."

Customer—"Which leather makes the best shoes?" Shoe Salesman—"I don't know, but banana skins make the best slippers."

An old Negro was burning dead grass when a stranger approached and said: "You're foolish to do that, it will make the meadow as black as you are."

"Don't you worry about that, sah," replied the Negro. "Dat grass will grow out an' be as green as 'ou is."

Judge—"I'm surprised at your going a law over a pig. Why don't you settle it out of court?"

"We was goin' to settle it out of your court yer honor, only a cop came and telled us apart."

According to Usher's chronology, the life of Adam began 5,004 years before the birth of our Lord, and Methuselah was born 3,317 B. C.

## MORTGAGE SALE

Under and by virtue of the powers of sale contained in a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction on Friday, the twenty-seventh day of March, 1925, at the hour of eleven o'clock in the forenoon, at Number 78 Main Street East, in the Town of Grimsby, in the County of Lincoln and Province of Ontario, being composed of part of lot number eight according to a plan of subdivision of lots and streets, and registered in the Registry Office for the County of Lincoln as Plan Number Twenty-three, which said part may be more particularly described as follows, that is to say:—Commencing from the north-east angle of said Lot number Eight; thence south along the easterly limit of said Lot number Eight, ten chains and thirty-one links; thence north sixty-six degrees and forty-five minutes west, one chain and twenty-nine and one-third links to a stake; thence North nineteen degrees and forty-five minutes east, ten chains and thirty-one links; to the northerly limit of said lot number Eight; thence easterly and along the easterly limit of said lot number Eight, thirty-eight links to a stake; thence North sixty-six degrees and forty-five minutes east, a distance of two hundred feet to the place of beginning, all of which said lands are now situated to the plan of the Town of Grimsby.

On said land to be sold to be erected a large one-story modern brick dwelling with all modern conveniences, said dwelling being known as house number 78 Main Street East, Grimsby; also a concrete of fine fruit trees and a good frame drive-house.

The property will be offered for sale subject to a reserve bid.

Terms: Ten per cent. of the purchase money to be paid down at the time of sale and the balance within thirty days thereafter.

For further particulars and conditions of sale apply to

R. C. CALDER, Solicitor for the Mortgagees.

## GOLD WATCHES PRESENTED

(Continued from page 1)

sure—and meant it—at having been a player on the Grimsby team; and also did each member give praise to Archie Dixon as manager of the team.

Henry Hillier, leading community singing, H. R. Campbell at the piano, the orchestra, Mark Frampton in song, Geoffrey Johnson in story, Gordon L. Eaton in song and story altered the program until the culmination when the presentations were made by Mayor Livingston and Reeve Mennell—the mayor doing the talking and the Reeve the work.

Here it was that the Peach Kings made good. Like at a crucial moment in a hockey game they had a chance to display their ability—and they did.

They accepted gracefully the proffered mementos and a few minutes later when given a chance to display needless oratory they did so by a word of appreciation and a word of eulogy for manager Dixon.

Frank Shoenberger, Gordon McBride and Big Tom Warner were not forgotten when the credit was being handed out, their work for the team being fully appreciated by team members, management and executive.

Then as the boys of the team thought they had received all that could possibly be handed them in speech and tangible evidence, J. Orion ("Bones") Livingston halted them long enough to explain that others outside of Grimsby appreciated the fact that the Peach Kings had "brought home the bacon".

Mr. Livingston produced from somewhere, eight neat packages and explained that Edward McKear and Arthur Grout now of Toronto—but Grimsby boys—had sent their appreciation in this comely manner. The packages contained each a pound of Harris Abbot's bacon for the boys' breakfast, (and "Jerry" Carson for one would do full justice to it). Mr. Grout is a member of the Harris Abbot's staff.

The toast list was a neatly printed affair in red and white (hockey club colors) and on the second page was pasted a splendid photo of the team—a very suitable memento for all present; and the dining room was likewise tastefully decorated with hockey sticks and streamers in the same colors, while colorful carnations adorned the tables.

At the table of the hosts and guests were the Grimsby town council (as hosts) Mayor Jas. A. Livingston, Reeve T. E. Mennell, Aldermen Jas. P. Bird, E. W. Burgoyne, Chas. Durban, Robt. Moxley, Marcus St. John and Richard Wadge.

The guests included Reeve W. C. Tafford, councillors S. Atkinson, Omar Cosby, Aubrey Fleming and R. O. Wilcox, Beamsville; the hockey club executive J. H. Wells, W. Cosmos (Beamsville), R. H. Kidd, secretary, A. H. Dixon, manager, (Burr, Fongor of the executive who was slated to respond to the club toast was absent on business and could not reach home in time for the dinner), the hockey team who have already been named; Thos. Warner, Frank Shoenberger and Gordon McBride of the training staff; the Grimsby Junior hockey team (the Peach Kings) Ossie Stewart, Rob. Hillier, Clifford McCartney, Vivian Farrell, Horace Farrell, Ralph Farrell, Leonard Hill, Tom Walker, Lester Neal, Chas. Robertson, Harry Marsh, Archie Alton; W. J. Reid of Beamsville; W. P. Randall town clerk; C. T. Farrell, L. J. Farrell, G. C. Hoshal, G. B. McConachie, Wallace Bromley, David Cloughley, George R. Westland of the Beamsville Express, Mark Frampton, Gordon L. Eaton, Geoffrey Johnson, Henry Hillier, Arthur Hayhoe, J. Orion Livingston.

The Lions Club had a table and as four of their number were among the guests of the council they completed their table with three guests T. N. Woolverton, J. A. Campbell and John R. Forman; the Lions were D. E. Anderson, C. M. Bonham, Bert Boulter, H. R. Campbell, A. R. Globe, P. A. Hendricks, J. A. M. Livingston, A. E. Moss, N. Serrva, P. E. Tregunno, Vernon Tuck, and C. D. Wells.

## SPRAY SUGGESTIONS

(Continued from page 1)

The Spray Outfit—Overhaul the outfit now; do not wait until a few days before spraying operations begin because you may be unable to make the necessary repairs in time for the first application. See if the pump needs re-packing; see that the hose is free from leaks; replace worn out disks of the gun; test out the machine and see that everything is in good working order.

Spray Thoroughly—Use some system in making the application: be sure and reach the top as well as sides of the tree; use good pressure, preferably not less than 200 lbs.; and use a liberal amount of the spray material—too much, rather than too little.

It is good practice to use a hydrometer. In any case be very careful in the measuring or weighing of materials going into the spray solution. Be sure you know accurately the capacity of the pail, or other container used for measuring purposes.

The First Application.

1. Peaches. Time of application—as soon as it is possible to get on the land and before the buds have started to swell.

Spray Materials—If scale is present use lime sulphur 1.035 sp. gr., 1 gal. commercial to 7 gals. of water. If scale is not present use lime sulphur 1 gal. commercial to 15 gals. water. Important—Do a thorough job of spraying taking particular care to reach the top and sides and cover all the buds.

2. Pears. Time of application—when blossom cluster buds begin to separate.

Spray Materials—Lime sulphur 1.035 sp. gr., 1 gal. commercial to 9 lbs. water, and add hydrated lime at the rate of 5 lbs. to 40 gals.

3. Sweet cherries. Time of application—when buds are well swollen and are on point of breaking.

Spray Materials—Lime sulphur 1 gal. commercial to 7 gals. water, adding nicotine sulphate at the rate of 1 pint per 40 gals.

Note—In spraying for aphids do a particularly thorough job and cover the entire tree at the one spraying.

4. Sour cherries. Time of application—as the buds begin to show white.

Spray Materials—Lime sulphur 1 gal. commercial to 40 gals. water, or Bordeaux.

5. Plums. Time of application—just before or as the buds are bursting.

Spray Materials—Lime sulphur 1 gal. commercial to 7 gals. water. If scale is present use lime sulphur 1 gal. commercial to 40 gals. water.

Note—Plums do not blossom blight severely, and therefore if scale is not present, the first application may be delayed at the discretion of the grower until the shucks application. This is the practice of many growers.

6. Apples. Time of application—as buds are bursting.

Spray Materials—If scale is present lime sulphur 1 gal. commercial to 7 gals. water. Where trees are free from scale use lime sulphur 1 gal. commercial to 40 gals. water or Bordeaux. To control aphids add nicotine sulphate 3-5 pint to 40 gals.

Note—(1) Where scale insects and aphids are factors not to be considered delay the application until the buds open.

(2) See note under "Sweet Cherries" for aphid control.

**Mrs. Leeman says:**  
"Carol saved my life—many thanks to Carol"

But read her letter. It tells her story better than we can—"I feel it my duty to write you about your wonderful medicine Carol. In January I had an operation for appendicitis. The pain I suffered before the operation and the loss of blood afterwards left me so weakened and unable to get on my feet. I just had to be around all the time. The doctor said I was to take from 1-2 my blood but it was so thin I had no strength and I had only a short time to live. Carol saved my life—many thanks to Carol. I have gained about ten pounds in three months. After every meal I used to have indigestion and I was so tired that the pain was intense. A dose of Carol would give me immediate relief. Now I am absolutely cured of both. I had severe headaches and pains across my back and the head also disappeared. This is how I started about Carol. I asked a friend about Carol. He said it was awfully good. Her doctor had recommended it to her to take after she had been in bed for months and she was completely cured. I called up Carol and asked her about it. Carol He recommended it to me and I was so sure of it I wanted to try it. I took a bottle of Carol from the wine but I said, 'No, I won't Carol.' So he said he would send me a bottle and I would see if it was as good as he said. I took it and it was a wonderful experience. I cannot recommend your medicine highly enough. It is just exactly what the system needs."—Mrs. Wilson H. Leeman, Grimsby, Ont. 9-2

**OSHAWA PAPER IN TROUBLE**  
We are sure the fellow-publishers of Messrs. J. C. Ross and J. Stuart MacKay in the Midland Press Association will regret to hear that by an order issued Saturday morning last by the Supreme Court of Ontario, an application, of certain debenture-holders of "The Reflector Printing and Publishing Co., Limited, of Oshawa, Ontario, has been appointed. Inform receive and it is a matter of T. Reflector Printing & Publishing Co., Limited, with authority to carry on the business of the company in all its branches. Mr. A. H. Ailes, a former editor of The Ontario Reflector, is acting for the receiver and manager in the active management of the Company's business.

The enormous expense of conducting progressive newspapers and large printing plants in these times is making for many publishers a difficult road to travel, financially.—Bowmanville Statesman.

## SOUTH GRIMSBY ROAD OVERSEER

John E. Naergarth Will Look After Township Roads This Year—Other Officials Appointed—Many Bylaws Passed

The council of the township of South Grimsby met in March session at the council chamber, in the Fire Hall, Smithville, on Monday afternoon. Members of council all present, with Reeve Jamieson in the chair.

The minutes of the last meeting were read and approved. A number of communications were read, the important list being the applicants for township road overseer and this occupied the attention of the township fathers for the greater part of the afternoon. In addition to those offered at the last meeting the following were placed on the table in response to the advertisement in The Review calling for the same. It would appear that it pays to advertise, judging by the list received by Clerk Roberts. Dr. W. S. Hibbard, the township's overseer, did not wish to be considered in the list of applicants at the price offered by council, but would consider the position if he was acquainted with the amount of work to be done, etc. The council deliberated long on the list of applicants and finally made their choice as per motion given below, the reeve voting on the motion, with Councillors Chas. Book and A. J. Dalrymple abstaining from the vote.

Applications were in from Messrs. Abram Erb, Roy Milmine, Vivian Fiske, Archie Griffin, H. Bruce Taylor, W. E. Field, Marshall Merritt, Andrew Allen, Wm. Ball, J. E. Naergarth and the former application of Dr. W. S. Hibbard, the only application cutting the price below the 40c per hour offered by the council being that of Andrew Allen, who offered to do the job at 35c per hour.

P. F. Daw, representative of the Globe Indemnity Co., was present and interviewed council re the matter of accident insurance on township employees while employed in township work. A policy will be forwarded to the council before the next meeting for their consideration.

A representative of an Indianapolis firm was present with a model of a road machine and gave a very practical demonstration of its capabilities. The reeve informed the representative that the council while interested in the demonstration was not in the market for the purchase of a new machine.

Councilor A. J. Dalrymple brought forth a motion for the appointment of a tree inspector for 1925, but received no second and the matter was dropped, although two applications were on the table, Clarence Rossell at 35c per hour and W. V. Alkeshed. The clerk will notify the department that no appointment will be made for this year.

The town trustees made requisition for \$1000, which was granted. Bylaw No. 797, a County By-law was duly read by the clerk re the matter of the township's power to collect arrears of taxes.

Moved by Charles Book, seconded by A. J. Dalrymple, that leave be granted to introduce a by-law to appoint fence viewers, pound keepers, and sheep valuers for the township of South Grimsby, as follows, and that the same be now read the first time.

Fence viewers—T. H. Nelson, B. Little, E. Fulton, S. Hoffman. Pound keepers—E. Fulton, T. H. Nelson, B. Little, A. Blanchard, S. H. Ecker, R. Jacobs, Rufus Miller.

Sheep valuers—J. G. Stuart, A. E. Juhlke, J. F. MacDougall, A. Melick.

Moved by Robt. E. Book, seconded by A. L. Shilton, that the by-law just read be now read the second and third time and do pass, the reeve and clerk sign and seal the same and its title be as in the motion.

Moved by Chas. Book, seconded by A. J. Dalrymple, that the following accounts be paid: Frank Trembley, road work, \$615; Wm. Page, shovelling snow, \$120; Percy Fullford, road work, \$225; Wm. Gurne, road work, \$475; John W. Lampman, shovelling snow, \$275; Police Village, from ordinary expenses, \$1000.

Moved by Robt. E. Book, seconded by A. L. Shilton, that leave be granted to introduce a by-law to appoint a road overseer for the township of South Grimsby for the year 1925 and that the same be now read the first time.

Moved by Chas. Book, seconded by A. J. Dalrymple, that the by-law just read be now read the second and third time and do pass, the Reeve and Clerk sign and seal the same and its title be as in the motion.

Moved by Chas. Book, seconded by A. L. Shilton, that it be a meeting be adjourned to meet again at Smithville Hall, on April 13th at one p.m.

## THEY BROUGHT HOME THE BACON

Congratulatory Messages Continue to Arrive—Old Grimsby Boy Sends Presents to Kings—Mudcats Glad of Our Victory

When Peach Kings trimmed the Soo and then beat the Falls in the last game, they certainly brought home the bacon in more ways than one, for on Wednesday morning last a parcel addressed to the "Peach Kings" care of J. Orloff Livingston, arrived via C. N. R. express and when opened it was found to contain a large side of the finest bacon that the Harris Abattoir of Toronto can produce.

The bacon was a present from Arthur Groat, a former Grimsby boy and was cut into eight equal pieces and presented to each one of the victorious players at the banquet in the Village Inn on Thursday night.

The letter accompanying the bacon reads as follows:—

Toronto, Canada, March 10th, 1925  
Dear Bones:—Just a line to congratulate the Peach Kings on bringing home the bacon the way they did in Toronto last week.

It was some week of hockey for Toronto fans and you know it to be the last one of 'em. You should have heard the comment on all sides regarding that last game. If the Kings did lose out by one goal on the round—and one goal more or less is a small matter they took home something more valuable and that is a reputation for clean, fast, sixty-minute hockey, and the hearty support of Toronto hockey lovers.

Our good friend and side-kick, Ed. McVicar, and I had the good luck to see all the games and, believe us, the only thing Dick Palmer had on us was the Flash Bill hat. We had to use deaf and dumb language after the game was over.

You know what Pud Reid is like when he gets going? Well just tell Pud that we'd bank him and those terriers of his against any team of hounds or any other animals in hockey to-day. Shorty and Lance and Art and Barney are a tough line up, and the defense is right there one solid hour. Here's hoping Mac and Jerry are getting along not too badly after their injuries. They sure played a great game, and don't let Stonewall Fisher take any pro. offers (or any of the other boys either), we'll need them for the Olympic team in a couple of years from now.

I hope the above mentioned bacon arrives in satisfactory condition. Its like the team that won it, second to none.

Yours sincerely  
ART GROAT.

P. S.—Don't forget, if there are any stray pictures of the team floating around, to reserve one for me.

## MUDCATS ARE TICKLED

Dunville, March 10th, 1925  
To the Grimsby Hockey Team:

We wish to enter our warmest congratulations on the performance of the team. Several carloads motored to Toronto, for each game and the opinion here is that Grimsby should have defeated the Falls on the series.

H. M. COLEBURY  
Sec. Treas., Dunville Hockey Club.

## NEW HAMBURG, TOO

March 11—Major Kidd—New Hamburg executive and players wish to take this means of expressing heartfelt congratulations to all members of your club and team in your recent worthy honors achieved. We trust your banquet will be as huge a success as the fighting qualities of your executive and team displayed. K. Werner, secretary New Hamburg Hockey Club.

## "STEVIE" SENDS CONGRATS.

St. Marys, Ont., Box 381, Mar. 8-25.  
O. Livingston Esq., Grimsby, Ont.

Dear Bones—Allow me to take this opportunity to congratulate through you, The Boys of The Grimsby Hockey Team for the wonderful showing they have made this winter, not only in winning the Intermediate Championship, which is no small feat in itself, but going out and eliminating a super team such as the Soo and although they were unsuccessful in winning the round with the Senior Champions the one goal we gain is in my mind no indication that they are the better team. Grimsby has covered itself with glory as far as the hockey world is concerned and I think it safe in saying that the team has done more to advertise your fair town than anything that has happened in it since the day that I became acquainted with it some five years ago. If I have had one person stop me on the streets, I have had a hundred all enquiring about the team, as to the size of it and many other questions, which under ordinary circumstances they would never take the trouble to find out.

I tried hard to get down to Toronto to see the final game but was unable to make it, but there was no one more anxious for the results than I was. This district was solid for Grimsby to win, due no doubt to the fact that it was an intermediate team. During the six league games I took in the most of them in Stratford and London, and in the early part of the season we were boasting for London to win but when they went out we transferred our allegiance to the Falls. This town usually a Stratford town turned against them through their dirty tactics toward London.

Now you will be getting tired of this so I will cut it short and don't forget to give my regards to the boys, not only to those I know but to the other members of the team that I have not had the pleasure of meeting, and sincerely trusting that they will be all with you again for another year, I am  
Very sincerely yours  
W. H. STEVENS

"Do you consider this poem worth sending to a magazine?" The expert considered. And then rendered this verdict: "Not with three-cent postage."

## Pt. Colborne Plays The Game

Port Colborne, March 6th  
Grimsby Hockey Club,  
Intermediate Champions,  
Toronto, Ontario:

We wish it known that we are proud of the Intermediate Champions of Ontario and group seven. If wishes make defeats your team will be Amateur Champions of Canada and holders of the Allan Cup.

PORT COLBORNE HOCKEY CLUB.

## Who's Who

**FISHER, Winton Ross**—Comes from the shores of Kempenfeldt Bay, in the county of Simcoe, to be precise, Barrie. He came nearly being a "Yankee" for he was born in the 5th of July, 1901, and has been "smilin' ever since. He started his hockey career with Barrie Collegiate Institute, for which team he performed between the nets for three years. Then for four years he played for Barrie Colts in the junior series, stepping up and playing the winter of 1921 with the intermediates. The winters of 1922-23-24 he was with the Dunnville Mudcats and came to Grimsby last April. When in playing shape he weighs 154 pounds, smile and all. He also plays baseball when the sun shines, either at first base or shortstop. His work the past winter has stamped him as one of the smoothest, coolest and best goal tenders in the O.H.A.

**McVICAR, John Ritchie**—Stands six foot skyward and when in playing shape, which is always, weighs 155. He was born in Renfrew and started his hockey career as a kid with the high school team of that town. This is the second championship team that he has played on. The winter of 1920-21 and the winter of 1921-22 he was captain and right defence man on the Iroquois Falls Juniors, champions of the Northern Ontario Hockey Association. The winter of 1922-23 he played with North Bay Juniors. In 1923-24 and again in 1924-25 he played with the Peach Kings. He is twenty-two years old and the only hockey player in the family, although his father in his day was one of the fleetest and brainiest lacrosse players that eastern Ontario ever produced. He is a baseball player, being a first sacker.

**CARSON—George Gerald**—Is the baby member of the famous hockey family of Carsons, being a brother of Dr. "Bill" and Frank, of the Stratford Indians. He was born in Parry Sound in 1902 and played his first hockey with the juniors of that burg. His next scene of endeavor was Woodstock where he went to college and played on the junior team of that city. He played with Grimsby last season as a left winger, but this season was moved back to defence and made good with a vengeance. When in shape he weighs around 175 pounds and is as fleet as a deer. In summer he holds down left field on the ball team.

**REID, Harry**—The boy that captained the Peach Kings to the championship and incidentally sent the Soo Greyhounds back to the woods to hunt wolves instead of Allan Cups, is a native product of the Fruit Belt, being born in Beamsville the 20th of March, 1896, just 29 years ago this coming Friday. This boy learned his first hockey on the creeks and frog ponds around Beamsville under the watchful and critical eye of his father, W. J. "Barb" Reid. His first appearance before the public was during the winter of 1914-15 when he played centre ice for the Hamilton Rowing Club juniors, who that winter won the junior championship and were acclaimed as the greatest junior team that had ever been collected together. The winter of 1915-16 he played with Hamilton Tiger intermediates, but they did not get anywhere, but in the winter of 1916-17 they landed the intermediate championship and "Pud" was one of their stars. He then laid aside the stick and skates and went to France to take a fall out of Heinie. He returned in 1919 and played that winter with Hamilton Tiger seniors, and helped win the senior championship, so that this is his fourth championship team. For years he has been acknowledged to be one of the best centre ice men in Canada despite the fact that he only weighs 140 pounds. He has one of the best winters of his long career this past winter, and there is still a good many years of fast useful hockey in his system yet. For years he was the backbone of the Beamsville ball team, as a pitcher and infielder. He also plays a trombone in the Beamsville band. He is married and has two sons, one of whom has already shown Grimsby hockey fans that he is a "comer".

**HORNE, George Alexander**—Has had the honor to play on three championship teams. His first one was with Sudbury juniors in 1920-21 when they copped the Northern Ontario Hockey Association cup. He was also with them the following season. The season of 1922-23 he was with North Bay Juniors and next winter helped them to cop the championship. He weighs 155 pounds, stands five foot six and on the 27th of June will be 21 years old, having first seen the light of day in Sudbury in 1904. He is a right winger and centre ice player and Toronto critics this winter hailed him as the best right side player that had appeared in the Queen City in many moons. He plays shortstop in baseball and also takes a crack at rugby.

**CLARK, Arthur George**—Was born in the town that produced one of the greatest hockey players, Tom Phillips, and also turned out one of the smoothest hockey machines that the world has ever known, Kenora. When still a babe his parents moved to Collingwood and it was in the Georgian Bay town that he learned his hockey. He first played with the Collegiate Institute team and then was a member of the juniors for four years, and although, still eligible for junior, he was a member of the intermediates in 1923-24. He is a left winger and unlike many of the present day players, attacks strictly to his check and wears a beaten path up and down the left boards. He's not a flashy or spectacular player, but is a mighty effective one, and is always the right man in the right place. He plays ball in the summer, being a catcher. He is also a musician of no mean ability being credited with being one of the best cornet players in the north country. He was born on the 30th of October, 1903, therefore, just being a few months past 21. He stands five foot seven inches and weighs 145 pounds.

**BURNSIDE, Charles Lloyd Nicholas**—Was born in the village of Markdale, near Shelburne, twenty-five years ago and played his first hockey and lacrosse with the team from that village. He is known as the double-handed wizard as he stick-handles and shoots either left or right and, as a result, plays all positions on the team except goal. He played two seasons with the Dunnville Mudcats, coming to Grimsby last winter. He has played lacrosse with Markdale, Durham, Orangeville and Milton. He stands five foot ten and weighs 160 pounds. He was married in January of this year to Miss Olga Colclough, of Blythe. He will play lacrosse this season with either Hamilton or St. Catharines and will also play baseball on the local nine.

**HAYHOE, Lancelot**—Was born in England and did not know what a hockey stick looked like until he arrived in Canada with his parents when a lad of ten years old. He is now twenty-two and still single. He first became prominent as a hockey player in the winter of 1920-21 as a member of Roy Farrell's Knochers Hill team which won the championship of the town and district on the old open air rink which was the forerunner of the present arena. The winter of 1921-22 he was a member of the juniors and the winter of 1922-23 helped that team to win the group championship. In 1923-24 he played intermediate and this past winter helped the Kings on the victorious march to the top. He plays centre and left wing. He weighs 175 pounds and stands five foot eight inches.

**FARRELL, Reginald**—Was born in Grimsby twenty years ago, and was still eligible for junior this winter. He, like Hayhoe, graduated from the Knochers Hill team and is the fourth one of that team to make the grade in "big league" hockey. The other two being Wentworth, with Brantford, and Marsh, with Hamilton Rowing Club seniors. He is the middle of the team, but is one of the "triggers" poke checkers playing centre ice. He was on the junior team in 1922-23 that won the group honors, and the winter of 1923-24 played with Hamilton Tiger juniors, with Wentworth and Marsh, and these three lads were the real cause of the Tigers getting as far as the semi-finals. An unfortunate accident at Niagara Falls early in December put him out of the game for the season with a badly broken leg. He is a second baseman and shortstop on the ball team and also takes a fling at rugby and golf.

## BOBBIE KITCHEN AGREES TO TURN PROFESSIONAL

Montreal, March 10—Bobbie Kitchen, star defence player of Niagara Falls senior B. H. A. champions was in conference with President Jimmy Strachan, of the Montreal N. H. L. Club, and Coach Eddie Gerard, the greater part of the day and to-night admitted that he was practically pledged to join the Montreal team next season. But Kitchen's terms have not yet been accepted by the Montreal Club, the Toronto boys asking \$3,500 a year with \$1,000 bonus.

signing. However, nothing definite regarding attaching his name to a contract will be done until some time this coming summer, when Kitchen will come to Montreal to go into the matter thoroughly.

Uncle—"Well, you little rascal, how many times have you been whacked at school today?"  
Tommy—"Dunno, uncle. I don't take any notice of what goes on behind my back."

## PEACH BUDS ARE COMING CHAMPS

"Jimmy" Farrell's Kids Are a Tidy Lot and Will be a Hard Team to Beat Next Year—Greasy Improved

(Old Pro.)  
While much space and publicity has rightfully been given the Peach Kings for their notable achievements—we must not forget the Peach Buds.

The kids, none of whom had any big league experience, rapidly developed under the tutelage of Brown Mallowhough into one of the best junior teams in the country. Lack of experience only cost them the round against St. Andrews, who in turn made the championship Auro Lee team go into overtime to beat them.

In "How" Marsh a real god tender was developed. This kid improved each time out and his work in the last few games earned him the value of real hockey. "It's a herover he played. The team's sub-goalie Lee, Neal also came along well, but this kid wasn't given much chance to show his wares as it was his last season in a junior company and the management was looking to the future. Neal, however, will be heard from in intermediate ranks.

McCartney and Hillier from a pair of untrained youths developed into a real sweet defense. "Mac" has become a real good skater and puck carrier but must learn to use his body legally and develop a better shot. Happy has the natural ability to become a star and once a few rough edges are worn off will be one of the best. With experience the pair trained this season, we look for them to show up extra well next year.

"Red" Farrell's work at centre stamps him as a real comer. He is a fast skater, has a good poke check and packs a wicked shot. The little pepper pot is equally at home in rough or easy going, but must learn to control his temper a bit.

"Colonel" Farrell playing right wing was one of the most useful kids on the team. At the beginning of the season he couldn't get the old shot on the nets but this came later. The "Colonel" is a real sixty minute man and undoubtedly the best junior right winger we've seen this season.

"Ping" Hill is a real sweet left winger and is capable of producing real high class hockey. "Ping" has a tendency to loaf on the job and not stay with his check enough but these are two faults which should be easily overcome next season.

One of the surprises of the season was the way Tommy Walker came along. Tommy is speedy—handles his stick nicely and packs a good drive. "Ping" and Tommy will have a right merry battle for the left position next season. "Doc" Stewart's style though peculiar was very effective. The big boy is a fast skater and equally at home at defense or on the line and his boring in tactics make him a dangerous proposition.

Robertson also came along nicely and will make somebody stop for position on next season's line up. This kid has a nice sweep check and a hard wallop at the nets. All of the seasons players with the possible exception of Stewart will be available for next season, and with the addition of several other youngsters who show much promise a real championship outfit should be secured.

The past season from every standpoint, except a financial one, has been a big success and it is hoped that next season the fans will line up behind the kids and give them the support they are rightfully entitled to.

## PEMBROKE HOME OF GOOD ONES

Saskatoon, March 4—Talking about family hockey teams, such as the famous Schnarr combination of Kitchener, Ontario, and the Boucher brothers from Ottawa, the Lowrey clan, the Taber Cooks, has started another hot argument.

You can't convince the ordinary Canadian athlete that his home town hasn't produced the greatest performers of sport in the Dominion. For example, Newey Lalonde, Saskatoon hockey pilot, and one of the most colorful athletes that Canada has ever had, hails Cornwall as the finest sport centre in America.

But listen to Harry Cameron, defence player of the Shels. Harry comes from Pembroke, and it would take a clever man to persuade him that the little Ontario town, now boasting some 9000 citizens, hasn't contributed some of Canada's greatest professional hockey stars.

"Here," said Harry, "let me write down a list of the pro hockey players trained up by Pembroke. There's Hupile Lehman for goal. Guess old-timers can tell you I've Hupile got his start tending goal while a young kid doing his stuff for the 'gang' on the Muskrat river. Then Leo Redise for defence."

Saskatoon hockey always has been a name for him—when he was captured the Allan Cup, but he is a fact that Reine first saw the light of day in Pembroke, and learned his hockey on the Muskrat river.

"How about Frank Nighbor?" continued Harry. "Where else could the greatest hockey player I ever saw come from but Pembroke? Bob Trappe, of the Edmonton Eskimos, and Gordon Fraser, of Victoria, are others who got their start in hockey down home; and Alan Wilson, former Ottawa player, now working at the coast."

"Can I remember twenty days in hockey? Say, the gang used to put on their skates in the early morning, play two or three games in the day, and then fight it out in the back alleys in the evening. Boy! These were the days of real sport!"

Cameron spent a week in Grimsby last fall with the Saskatoon Shels, training here.

## Everybody Help

Since the final time going tolled in the last Niagara Falls-Grimsby tilt in Toronto there has been much talk and many rumors regarding the Peach Kings and whether they could again, as a whole, carry the red and white colors of Grimsby next winter.

Like all victorious teams they have had longings cast upon their ranks by hockey moguls in other towns and cities. Like all players on a winning combination practically all the boys have been approached during the past two weeks with offers to transfer their residence to some other town or city. So far all the boys have turned a deaf ear to these proposals. At present they are perfectly satisfied to stick with the old town whose name they have emblazoned across every sporting page in the Dominion of Canada and half the United States.

These boys were made, and will still receive, some mighty attractive offers to leave the fruit belt, and some of these offers, no doubt, will sorely tempt them, therefore, it is up to every resident of this district to do all in their power to help these boys along in life and therefore help to maintain intact for another season at least, the 1924-1925 intermediate champions.

The boys themselves feel that they will be further advanced in hockey by remaining together for another year. With the exception of Captain Reid, they are still only youngsters. They are the baby team of the intermediate series. The youngest team in point of years that ever won the much sought after John Ross Robertson cup. Their ages do not average more than twenty-two years, so that another year together will help them greatly in developing their own playing ability.

People who watched the progress of this team throughout the season are correct when they state that the Peach Kings that went against the Soo were a five hundred per cent. better team, collectively and individually, than the team that opened the season in Port Colborne on December 30th, 1924. They developed rapidly all winter. They were better each game. Next winter they will start in where they left off this winter and when springs comes again will still be a greatly improved team over what they are today.

Let's all put our shoulder to the wheel and hold our boys together. Let's all help to stave off the tempting offers and attractive bait held out to them by other towns.

There are no roughnecks on the Peach Kings. Every man is a gentleman on and off the ice. Every man is an intelligent, upright good living boy and can take his place in any society. Grimsby cannot afford to lose young men of this high type and therefore it behooves us all, young and old, man and woman, to do everything we can to keep these lads together, not only for our own good, but for the good of the boys. We are all working in a common cause, so let's pull together and start right now to root for the Peach Kings to capture the Allan Cup next season.

## The Peach Kings

(With poetic license).

A psalm of victory the Peach Kings have won,  
Their rivals in hockey are all on the run;  
From the north and the south, the east and the west,  
In all this broad land our team is the best.

And Grimsby is proud to honor a team  
Playing hockey like sportsmen, and playing it clean;  
So bring out your laurels and decorate all  
Whose names should be hung in memory's hall.

Stand "Jerry the Giant", step out to the front;  
Tell the world how it feels to carry the brunt—  
For Juggernauts ancient had nothing on you  
When you start down the ice you carry it through.

And "Shorty" is next, whom Colborne has cursed,  
A youthful tornado, out on a bust;  
Hoist the storm signal for as sure as you're born,  
They'll meet a stiff gale while rounding the "Horne".

And dour McVicar,—some ghost of the past  
From leading his clan—has found you at last;  
And tilting a bottle or chasing the puck,  
Who would beat a Scotchman, is sure out of luck.

Now, "Pud", it's your turn, loud praise is your mead;  
A marvel in action, quick thinking and speed;  
Your opponents all mumble, "Well, where is he now?"  
"Why, he's shooting the puck for a goal—Wow!"

Come forth Mr. Clark, you're last but not least,  
For speed you compare with lightning when greased;  
Clean living and playing, Ah! girls, here's your man,  
Now vamp him and make him your own if you can.

Hail, Burnside and Hayhoe, you're making the grade  
And showing the stuff of which champions are made;  
You have mastered the art of doing your best  
And work for the good of the team with the rest.

Well see who's here, at the end of the line:  
Bud Fisher, the lover of women and wine,  
Who defends with his life, the net he has spread,  
By stopping some goals, with the crown of his head.

## PULLED FOR THE SASKATOON TWO FALLS TO WIN GOALS BEHIND

During the banquet to the Peach Kings on Thursday night last the two hundred odd people in the Village Inn banquet hall were kept posted as to the happenings in Toronto Arena where Niagara Falls and Montreal Victorias were engaged in playing the second game of their series in the Allan cup elimination.

Telephone messages were received and announced at the end of each period at the end of the game, and the Falls victory was received by loud applause and cheering.

Shortly after eight o'clock a message of encouragement was wired to the Falls team in Toronto, as the news was received that the victors had been victorious a message of congratulations was dispatched. But messages were from the town of Grimsby and the Grimsby hockey club and were as follows:—

"Two hundred people at the Peach Kings banquet tonight wish you every success in the world."

"Heartiest congratulations on your noble victory. Hurrah for the Peach Kings!"

## GRIMSBY LOSES GOOD BOOSTER

Removal of Brown Mallowhough a Severe Blow to Sporting Circles—Took Great Interest in Developing the Kids.

His many friends have noted with regret the transfer of Brown Mallowhough from the local branch of The Canadian Association of Commerce to the Hagersville branch.

Since coming to Grimsby Brown has taken a prominent part in the sporting world, particularly the hockey end, and the interest he took in the foundation of all true lovers of sport.

The way he brought along the season's junior team is a matter of history. Starting in with a bunch of raw untrained youngsters he rapidly developed them into one of the best kids outfits in the country, and uncovered several lads who will undoubtedly make a name for themselves in the future.

The Independent joins with their many friends in wishing Mr. and Mrs. Mallowhough prosperity and health in their new home.

## LONDON FANS SEE CHAMPIONS

Peach Kings are playing an exhibition game in London tonight and the advance notices of the game which have appeared in the London papers have been very complimentary to the local team.

The following story from the Free Press is a sample:

**GRIMSBY, YEAR'S SURPRISE HOCKEY TEAM, PLAYS HERE AT ARENA NEXT WEDNESDAY**

London Fans Will See Scint in Action Who "Crossed Up" Everybody in Canada Against London Seniors.

Final arrangements between the London A. A. A. and Grimsby O. H. A. intermediate champions, were concluded yesterday for an exhibition game with the London seniors at the Arena here on Wednesday night, March 18, instead of Friday night as originally intended.

The delay in the staging of the fixture was caused by the fact that the co-operators of the Soo Greyhounds did not want to appear in support of the L. A. A. benefit without their regular line-up, as several members of the team are nursing bruises received during their wonderful Allan cup matches.

Popular opinion among the fans was the expressed desire to see the "Peach Kings" from Grimsby in place of any team in the country, since they provided the sensation of winter pastime never equaled in the annals of the game. When they eliminated the Allan cup holders they undoubtedly accomplished something that was unlooked for throughout the hockey season of Canada.

The fans in London and surrounding district are satisfied to wait a few days longer for the classic, understanding the reason.

For this game, which will undoubtedly pack the Arena, which has been donated to the L. A. A. by the directors, the London seniors will be augmented not only by George Pollis and "Dad" Ashley, the popular defense player of Preston, Stratford and Warton, but by "Butch" Keeling, the sensational young junior of the Owen Sound Greys, Donalson champions.

Horne, of the "Clingsstones," is one of the factors that put the grim in Grimsby. He was acclaimed the outstanding player during the Niagara Falls series, press notices being to the effect that he was about the most finished right-winger seen in Toronto this winter.

## GREAT STUFF

The fame of the Peach Kings and their sensational achievements this past winter have spread far and wide. Not only have they broken into print in thousands of newspapers in Canada and a portion of the United States but they have also achieved the distinction of having their pictures appear in the papers in the land of Uncle Sam.

Last week Murdoch the Grimsby photographer received telegrams from the Detroit Free Press and the Buffalo Courier asking that they be mailed immediately group photos of the Peach Kings. These pictures will appear in this week's issue of the Sunday edition of these two papers.

## WAIT TILL NEXT YEAR, BROTHER

Now that the Port Colborne team is back in shape at last a game with the Grimsby Peach Kings, Allan cup contenders, would be a great drawing card. Most of the Port fans contend that the argument as to which was the better team has not yet been settled and would like to see a showdown with both teams at full strength. But then, of course, it is improbable that the Peach Kings would risk having their reputation dimmed by their former intermediate rivals.—Port Colborne Citizen.

boil on a fat man's neck. He was by far the best man on the ice.

Kellerbourne was absent from the game, and this counted

yet from their two previous encounters. Grimsby, no doubt accounted for their loss. "Butch" was on the job Thursday night and the team was also rested up considerably.

An old gentleman (wishing to test small boy's knowledge): "If you had 13 oranges, and I gave you one more, how many oranges would you have?"  
Small boy: "I don't know, sir; we always do our sums in apples."

## TO ALL Grape Growers

THE SHAREHOLDERS OF THE NIAGARA DISTRICT GRAPE GROWERS LIMITED at the Annual Meeting held February 14th, 1925, confirmed the resolution submitted by the Directors covering the future of the Company.

## THE RESOLUTION

1. PROVIDED that if by April 1st next the contracts for delivery of Grapes then in the Company's hands, do constitute a sufficient acreage to give the Company practical control of the entire carlot sales, the Directors be requested to continue the operations of the Company, using for that purpose the whole of the Company's assets.
2. IN THE EVENT of such contracts being in their total amount insufficient to effect this purpose in, the judgment of the Directors, then, on the named date of April 1st, next, the Directors are hereby authorized and requested by this meeting of shareholders to at once cancel all contracts for the purchase of Grapes then existing. The said Directors are further requested to proceed without delay to suspend entirely all future operations of the Company save only such operations as are necessary to realize the Company's assets and to pay its just debts.

IS A CONTRACT FOR DELIVERY OF YOUR GRAPES IN THE COMPANY'S OFFICE?

## OLD-TIME GAMBLERS' RANKS ARE THINNING

Old-time gamblers and sporting men learned the other day that one of the most illustrious of their number in the time when gambling in New York was at its height, had passed away. He did not die as the gambler is so often and so erroneously reported to die, namely, in the poor house. He checked out on Long Island leaving, beside a good many interesting memories, an estate of about a million dollars. This former gambler was Billy Busted, partner of Dave Gideon, whose name was a household word. He opened the first big gambling house in the Tenderloin, at Twenty-ninth Street and Sixth Avenue. Later on, following the crowd, he moved to Forty-fourth Street and opened a three-story establishment devoted to the Goddess of chance. Busted was a fine-looking, ruddy-faced man who gave his customers an even break—with the exception of the little percentage that will make the honest gambler rich if he plays long enough and his customers poor—and like the other gambling princes provided them with free food and drink, and an opportunity to feast their eyes upon valuable paintings and other objects of art.

### Beaten by Jerome

Busted, Gideon, Tom Jolly and Richard Canfield defied for years the efforts of the police to put them out of business, but finally they were all suppressed, not so much by the law themselves as by District Attorney Jerome, who drove the police to their unrelenting task. In the end the defences of the big gamblers collapsed, appropriately enough, like a house of cards. So long as they could bribe, they were safe. If they were willing to be "fixed" the gamblers were willing to be beaten. They were willing to pay for practical and legal advice of the most expensive sort. But when a squad of strong-arm men burst through their massive doors with axes, and police began taking the names of the persons found within, the end had come. Had the customers been average citizens, or merely sporting characters, the proprietors would have fought the cases in court. But their customers were, unfortunately for Canfield, Busted, et al., among the most powerful people, financially and socially, in the city. They could not afford to appear and give evidence. They were known. For their sake the gamblers had to quit the game.

### Honest Gambling

The violent methods of Jerome caused Busted and Gideon to close down. They disappeared from sight, to emerge briefly in the public prints a few years ago as proprietors of an excise gambling house on Long Island. They pleaded guilty, and the judge, taking cognizance of their age, did not send them to jail for six months, but imposed a fine of a thousand dollars. That ended their gambling. Tom Jolly, one of the big men in the business, now living in agent retirement, said that all of

the big gamblers had gone. The men running games today were, in his opinion, "tin horns". They run the crooked wheel and the wrong faro layout, and they don't care who gambles with them so long as he has money. It was different, according to Mr. Jolly, in the old days. The gamblers then ran everything straight. There was no crookedness, only the little old percentage previously mentioned, which in the long run will make the gambler rich and the man who backs him poor. Moreover, the old kings of the game did not want any but wealthy customers.

### In the Old Days

In the old days the biggest plungers were the Wall Street men. After an exciting day on the exchange, many of them liked a flutter in the evening. If they had had a successful day they were anxious to follow their luck; if they had had a bad day they were desirous of recouping. The Wall Street men were nearly all heavy bettors, for sums that would seem large to the average man were small compared with the sums they risked every day in the course of their business, and to risk any less over the green board would not have given them the desired thrill. Mr. Jolly remarks, however, that the old gambling houses used to look after their customers. If a man had won a roll, and seemed to have some difficulty in getting home, he was placed

safely in a cab. If he had won a particularly large sum, the gambling house would not only provide a cab but a trusted man to mount guard over the winner until he reached home, for in those days the Tenderloin was not a safe place for a rich and exuberant citizen after dark.

### Canfield

Canfield was the richest and most famous of the old gamblers. He began life as a hotel clerk in Providence, his native town, but soon blossomed out as the proprietor of a gambling house, for he was a born gambler, and from his youth up was planning games of chance and how to beat them. He was arrested, sentenced to six months' imprisonment and served his time. After his release, he went to New York and opened a place on Thirty-sixth Street. It flourished, and Canfield, careful of his winnings but ready to risk them for bigger game, opened the most palatial gambling house in the United States next door to Delmonico's. It became in time one of the institutions of New York, which most distinguished visitors saw, either to take a chance or to indulge in a moral shudder. The place was fitted up like a millionaire's and many a millionaire might have envied Canfield the taste and judgement with which his money was spent. Later Canfield opened a famous gambling establishment at Saratoga, which became the Monte Carlo of the United

States. Canfield closed down when the police broke through his doors, and when he had the option of closing or seeing scores of prominent citizens placed in the witness box to tell what they knew about his place.

Grocer—"No sir, you can't cheat me, there are only 15 ounces to the pound in that butte."

Seller of Butter—"Weel, Mr. McGregor, it's yer ain blame."

Grocer—"How's that?"

Seller of Butter—"Weel, you see, I lost my one pound weight, so Oi jist weighed it w' that one pound o' tea

I got frae ye yesterday."

"How is it you have such a good memory, Norah?"

"Well, mum, I'll tell ye. Since me childhood never a lie have I told, and when ye don't have it to be taxin' yet memory to be rememberin' what ye told this one or that, or how ye explained this or that, shure ye don't overwork it an' it lasts ye, good as new, till ye die."
